CHRISTMAS GONK

DMD
david mason design
Est. 1962

David Mason Design has over 50 years' experience in the production of mills.

All designed in the UK.

Our expertise in technical innovation, quality and design combine to bring you classic and contemporary salt and pepper mills.

Quality

We only use the finest grade materials. The design, manufacture and production of our mills is tightly controlled to ensure quality throughout the process. All the mills are tested to the highest standards.

Mechanism

The mills incorporate a ceramic copyrighted 'spring tension' system. This helps with the adjustment of the grinder via the screw knob for either pepper or salt depending on what is being used in the mill. Turn the screw knob clockwise to tighten the mechanism and produce a fine grind and turn anti-clockwise to produce a coarse grind. To re-fill the mill, fully un-screw the knob and take off the top.
