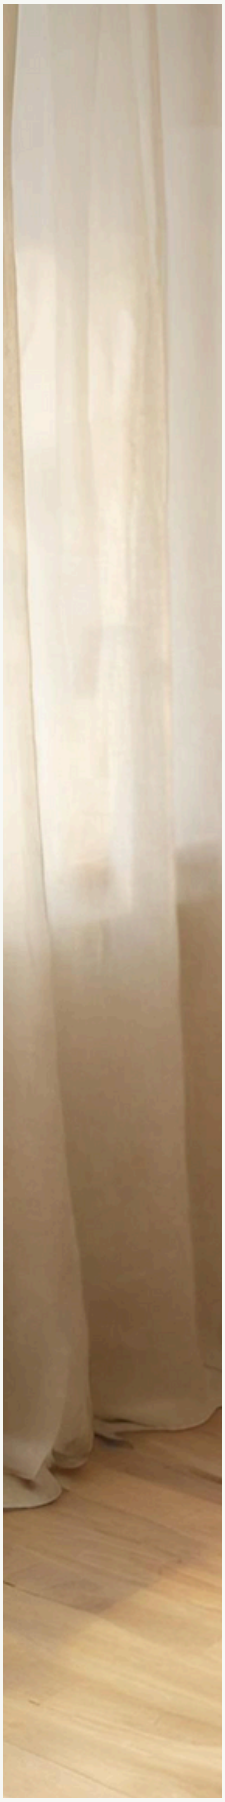
About Us..



Crumpet Prints started as a way for me to channel my years of design experince into an enjoyable hobby, creating pieces that stepped away from the every-day and were meant to be kept. It grew quicker than I could've imagined into a small business with an amazing community of supporters. I find joy every day in designing pieces that people will cherish and love, and that will love the planet back.

With Kindness,
Emma
Founder & Designer
