£230.00
per panel

Overlay Graphics

Our "Overlay Graphics" are the best option for your space if you are searching for a premium look and feel to enhance your stand and cover up those wide poles that join each panel. This graphics finish is our most popular choice by exhibitors as it allows you to have imagery and text across your walling with only a hairline join seen where each 1-meter panel meets.

Please note that Full Vision will remove all graphics after the event unless requested otherwise by the purchaser

Infill Graphics

If you are looking for stand graphics that can be used multiple times and fit in-between the joining poles of the stand, then our infill graphics are the best choice for your space.
Infill graphics can be used for multiple events and varied stand configurations, maximising your budget and reusing them year in year out.

Please note that Full Vision will remove all graphics after the event unless requested otherwise by the purchaser

per desk

Sustainable Desk

Do you want to provide that welcome experience to your space with a branded desk rather than just a plain white cabinet? Do you want to do your bit for the environment and use a fully sustainable cardboard product? Our sustainable branded desk provides that extra personal touch for your visitors when arriving at your stand.

Full Vision will print your artwork directly to media and this is then directly clipped into the build system used by the contractor of choice. All sizes will be provided for you to set your artwork to the exact size.
