ACTISWEEP

V-Concept broom: clean larger areas faster

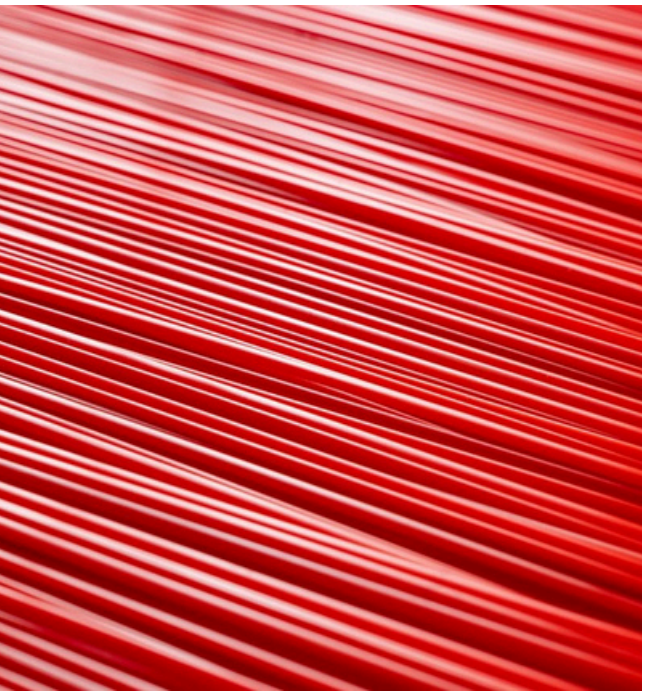
Universal | Maintenance-free | Up to 1000km lifespan

PATENTED V-Concept®

- **QUICK COUPLER.**
- **ALL MATERIALS.**
- **BUILT TO LAST.**

The Actisweep concept

An innovative cleaning solution.



A truly unique brush design

Actisweep has engineered a one-of-a-kind brush featuring industry-leading technical specifications for maximum sweeping efficiency.

Two specialized versions:

- **Standard red brush:** Our reliable, go-to polypropylene brush for everyday tasks.
- **Black "finishing" brush:** engineered with finer bristles for a flawless, pristine finish.

Reduce Lifetime Costs: Brush rows slide securely into independent rails. When a brush wears down, you only replace the bristle fibers, not the entire frame structure.

Built to last: Depending on your broom model and brush length, our heavy-duty brushes boast an exceptional lifespan of up to 10 years!

The Patented 'V-Concept®'

Patented technology engineered to gather heavy, sticky, and challenging materials (digestate, mud, manure, silage)

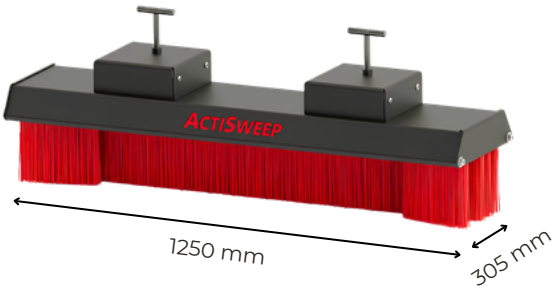
Model M4

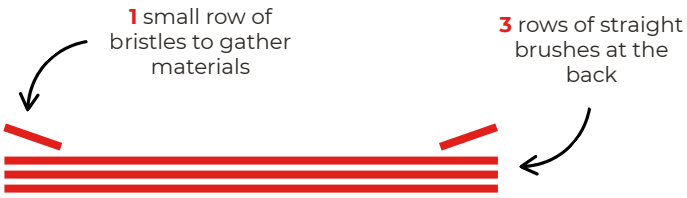
The compact broom for quick cleanups.

AGRICULTURE & GRAIN TRADING | INDUSTRY & LOGISTICS | LANDSCAPING | SNOW | EQUESTRIAN



Our most compact broom. Its M-Shaped design channels materials toward the center. Built for quick tasks, this model can be easily used on forks or ATVs.

Perfect for small spaces and light materials:
Grain and fine feed dust
Loose straw and hay
Sand and light soil
Thin layers of fresh snow



See usage videos

Designation	Dimensions (LxPxH)	Weight	Reference
Actisweep M4-1200 with forks	1250 x 305 x 335 mm	32 kg	CE86A014

Model V7

Designed for light or occasional use.

AGRICULTURE & GRAIN TRADING | INDUSTRY & LOGISTICS | MATERIALS TRADING | SNOW | EQUESTRIAN

This cost-effective and efficient broom is designed for simple and everyday cleaning on smooth surfaces.

Optimized for light and fine materials:
Grain, seeds and dust
Sawdust and wood shavings
Light snow and dry debris
Indoor warehouse waste

A complementary range dedicated to livestock well-being

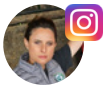
ANIZEN
by ACTISWEEP

AniZen, a dedicated range of brushes for livestock comfort and well-being.

Engineered with the same high-durability fibers as Actisweep brooms, our livestock brushes significantly improve animal comfort and welfare.

Designed for maximum simplicity, they require zero maintenance and no power supply. The heavy-duty frames are built to last. You only replace the bristles when worn. Available in 3 specialized models with versatile mounting solutions.

“A real revelation on my farm!”
Since installing the ANIZEN brush, my suckler cows are more relaxed, their coat is healthier and shinier, and tensions in the herd have significantly decreased. Robust, durable and designed for animal well-being, this brush has transformed the daily lives of my animals... and mine. I recommend it to all breeders!



Pauline Garcia
breeder - @etho_diversite
