

RDMSS

Rapidly Deployed Modular Shelter System

Maximum capability, minimal logistical footprint.

Weatherhaven has developed the Rapidly Deployed Modular Shelter System (RDMSS) to provide a shelter system that is robust yet logistically agile, scalable and modular in design.

CAPABILITY

- Deployment of modules in less than 10 minutes with three people.
- Lightweight aluminium frame.
- Interchangeable frame parts between shelter models.
- Full blackout.
- Multiple egress points facilitating interconnectivity to other shelters and vehicles.
- Multi-role capability for global expeditionary military requirements.
- No tools required for installation or redeployment.
- Minimal maintenance facilitates through life support.
- Operational temperature range: -51°C to +49°C.

MODULAR OPTIONS:

- Operations: 92.4 m² (995 ft²).
- Planning: 46 m² (495 ft²).
- Office: 22.8 m² (245 ft²).
- Shelter Connector Hub: 12.8 m² (138 ft²).
- Black-out Vestibule: 11.3 m² (122 ft²).
- Vehicle Boot: 10.5 m² (113 ft²) to accommodate a truck at 4 m (13 ft 3") height.

Weatherhaven Global Solutions Ltd.

Oakley's Yard Gatehouse Road Rotherwas Industrial Estate Hereford HR2 6LR UK

CAPABILITY DETAILS:

- High specification insulated structures.
- Solar shade.
- ECU and cable ports.
- Interchangeable, rapid-install soft and hard doors.
- Internal ducting.
- Rugged soft flooring system with weather, vermin and vector seals.
- Screened window vents with a clear view-flex shield and external blackout covers.

CAPABILITY ANCILLARY OPTIONS:

- Tactical lighting kit.
- HVAC with 60,000 BTU capacity.
- Diesel-fired heater with -51°C cold start.
- Rapid deployable hard flooring with integrated underfloor cabling system.

From requirement to capability - the complete solution.
