

CONNECTED AND PROTECTED

**SUPPORTING FRONTLINE TEAMS
IN THE MOMENTS THAT MATTER**

INTRODUCING MOTOROLA SOLUTIONS AS A DEFENCE TECHNOLOGY PARTNER

MANAGING A NEW THREAT LANDSCAPE

TODAY'S MILITARY FORCES FACE AN UNPRECEDENTED SPECTRUM OF HOSTILE THREATS. THESE RANGE FROM INTERCEPTION OF BATTLEFIELD COMMUNICATION NETWORKS TO ORCHESTRATED CYBER ATTACKS ON DISTRIBUTED COMMAND AND CONTROL SYSTEMS, AS WELL AS THE PHYSICAL COMPROMISE OF BASES AND OTHER STRATEGIC ASSETS.

IN THIS COMPLEX AND RAPIDLY EVOLVING LANDSCAPE, MILITARY FORCES ARE INCREASINGLY EXPOSED TO THE INHERENT LIMITATIONS AND VULNERABILITIES OF UNDERPERFORMING LEGACY TECHNOLOGIES. SPECIFICALLY THERE ARE THREE MAJOR AREAS OF CONCERN:

Legacy radios are inadequate platforms for secure real-time sharing of video and data alongside voice communications.

Near peer enemy forces and terrorists have the digital firepower to penetrate, compromise and disrupt intelligence and command and control networks, putting nations and their operations at risk.

Security of Military Bases and other critical national infrastructure may often be entrusted to out-of-date access control and perimeter monitoring systems that can endanger the safety of personnel and integrity of other critical assets.

A CONNECTED ECOSYSTEM TO SUPPORT TODAY'S MILITARY FORCES

In a challenging and increasingly unpredictable world, Motorola Solutions offers the first and only integrated mission-critical technology ecosystem, providing a lifeline that frontline service men and women can depend on for the safety and success of their mission.

Unifying the secure sharing and delivery of voice, video and data, our comprehensive suite of technologies gives defence personnel a powerful strategic advantage through real time access to critical data as a source of actionable intelligence.

**ALWAYS CONNECTED & PROTECTED
PERSONAL AND PLATFORM
RADIO SOLUTIONS**

Ensure the uncompromised flow of secure and resilient voice and data communications with portable and mobile software defined narrow and wide band radios, offering secure push-to-talk and broadband connectivity.

**SEE & BE SEEN
BODY-WORN VIDEO**

Improve the situational awareness, safety and accountability of front-line service men and women on combat operations with body-worn cameras that deliver valuable insight from the wearer's perspective for them and their commanders. Help calm difficult encounters for base security teams, military police and peace-keeping missions while providing crucial evidence and proof of professionalism for after action analysis.

**OBSERVE, LEARN & PREDICT
VIDEO SECURITY & ANALYTICS**

Our smart cameras continuously scan, analyse and learn from their environment. Powerful video analytics helps teams instantly recognise what's important and what's not, supporting enhanced situational awareness.

**SECURE PEOPLE & ASSETS
ACCESS CONTROL
& ALARM SYSTEMS**

Our perimeter monitoring, access control and alarm systems provide the flexibility to proactively manage physical site security and coordinate notification and emergency alert systems over mission critical networks.

**MONITOR, DETECT & RESPOND
CYBERSECURITY**

Our highly trained teams can support the mission of military forces with a comprehensive suite of cybersecurity services, including 24/7 systems monitoring and analytics, risk assessment and consulting services.

**EFFECTIVE COMMAND & CONTROL
COMMAND CENTRAL SOFTWARE**

By orchestrating the seamless flow of multi-modal information from military bases or deployed on field operations, we reduce the cognitive workload on Commanders and their teams, enabling mission success and operational advantage and effectiveness.

**AVAILABLE 24/7/365 ANYWHERE
MANAGED & SUPPORT SERVICES**

Providing round-the-clock support for the technology solutions that our users depend on, we ensure they are secured from cyber threats and always current with latest technology advancements.

CREATING A SAFER WORLD

Motorola Solutions is a world leader in mission-critical technology for military and public safety customers worldwide, with a track record of innovation that spans over nine decades of helping people be their best in the moments that matter.

We can claim a rich history of firsts, stretching back to pioneering the development of mobile communications in the 1930s. We've been there at pivotal moments in history – like creating the technology that carried the first words from the moon in 1969. And in 1983 we introduced the world's first commercial handheld cellular phone.

Today our comprehensive portfolio of mission critical solutions spans technologies to support defence organisations, emergency services and public safety professionals.

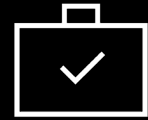

INSTANT, RICH COMMUNICATIONS

AGILE, MOBILE NETWORK COVERAGE

STRONG DATA SECURITY

ON-DEMAND OPERABILITY
