

COMPASSWEB™

COMPONENT OBSOLESCENCE MONITORING & PROACTIVE SURVEILLANCE SYSTEM

Obsolescence Monitoring

Obsolescence Health Checks and Ongoing Surveillance and Monitoring

Risk Assessments

BoM Risk Assessments iaw IEC62402 including Mitigations and Solutions management

Report Generation

Dynamic creation of Risk and Obsolescence Reports

Hierarchical Structures

Multi-Project Bills of Material (BoM) Management in full Hierarchical Structures

Dashboard

Project and Equipment Dashboards

Customer Alerts

Customers are alerted to any Status Change Notifications

COMPASSWeb

COMPASSWeb has been developed as an extension of our Obsolescence 'Managed Service' providing customers with online access to their BoMs and the ability to generate their own reports from 'live' data.

At the core of COMPASSWeb is the ability to manage BoMs in accordance with the requirements of the IEC62402 International Standard for Obsolescence Management.

Accessed by secure login, COMPASSWeb enables customers to view traditional obsolescence data for their BoMs and individual components, but also conduct initial and ongoing Risk Assessments utilising the obsolescence triplet of Probability, Impact and Cost. Customers can additionally manage their risk mitigations and obsolescence resolutions via the tool.

For added security, all customer data will be hosted onsite by CMCA(UK), not in the Cloud.

CMCA(UK) Obsolescence Through Life Support Services Overview

Our Obsolescence Management support services are designed to be deployed at any stage of the project or equipment life cycle, from Concept phase through to Pre-disposal

About us

Central Management Catalogue Agency (UK), or CMCA(UK) as we are more commonly referred to was established in 1997.

From our Codification roots, CMCA(UK) has diversified its business portfolio to offer an extended range of services in Obsolescence Management & Training, REACH Services, Long Term Storage and Procurement. Our customers operate in high reliability industries such as Defence & Aerospace, Marine, Nuclear, Pharmaceutical, Oil & Gas, Renewable Energy, Rail and Manufacturing. Although our services are designed to meet the needs of almost any application, if there's one thing that our significant experience has taught us, it's that there is no such thing as a 'one size fits all' solution!
