Financial Disclosure & Mitigation

Accredited Continuing Education Financial Disclosure

The American College of Medical Genetics and Genomics (ACMG) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide Accredited Continuing Education (ACE) for physicians. ACMG is an organization committed to improvement of patient care and general health by the incorporation of genetics and genomics into clinical practice.

ACMG has implemented the following procedures to ensure the independence of ACE activities from commercial influence/promotional bias, the Accreditation Council for Continuing Medical Education (ACCME) requires that providers (ACMG) must be able to demonstrate that: 1) everyone in a position to control the content of an ACE activity has disclosed all financial relationships that they have had in the past 24 months with ineligible* companies; 2) ACMG has implemented a mechanism to mitigate relevant financial relationships; and 3) all financial relationships with ineligible companies are disclosed to the learners before the beginning of the educational activity. The learners must also be informed if no relevant financial relationships exist.

****Ineligible companies are defined as those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.***

All relevant financial relationships listed have been mitigated.

Name	Role: Presenter/Panelist/Moderator/ Liaison/Program Committee Member/Peer Reviewer	Financial Disclosure for 24 Months (relationship is ongoing unless stated)
Ross A. Rowsey, PhD, FACMG	Chair - Program Committee	No Relevant Financial Relationship
Nathan D. Kopp, PhD	Vice Chair - Program Committee	No Relevant Financial Relationship
