

# ELECTRICS TECHNICAL WORKING GROUP

## PURPOSE

Electrical Technical Working Group members have tasked themselves with the role of remaining up to date with health and safety issues, specifically relating to temporary electrical installations at events that are held within exhibition hall environments, discussing risk and defining their collective findings and suggested methodologies within the AEV eGuide document.

## OBJECTIVE

To be decided

## PARTICIPATION

Membership of this group is open to all AEV members plus a selection of other organisations and individuals recommended by the group. It is aimed at attracting those within a technical or site services role working for event venues, organisers and event suppliers.

## FREQUENCY & LOCATION

For the course of 2021, the group are going to meet monthly and reviewed as the pandemic guidance progresses. This is to support the group's strategy and prepare for the reopening of events from Q2 onwards.

Gatherings are to be held virtually with the intention to meet face to face at a UK venue location TBD for a full day of collaboration.
