Ralf Siempelkamp
Business Development

Former Chief Merchandising Officer and Director of Global Retail Operations for Hugo Boss (2010-2016), and Head of Global Retail Systems for Esprit (2007-10).

Problem

Brands and retailers spend millions of dollars designing advertising creative, social media content, banner ads, product packaging, merchandising displays, storefronts, and more.

But how do they know what customers are really seeing in those first few critical seconds?

*Which poster is most effective
at capturing visual attention?*

Which Instagram images are most effective at capturing visual attention?

Which packaging designs are most effective at capturing visual attention?
