Fragility, Conflict,
and Migration

INNOVATION
ACCELERATOR

CGIAR x WFP Innovation Accelerator

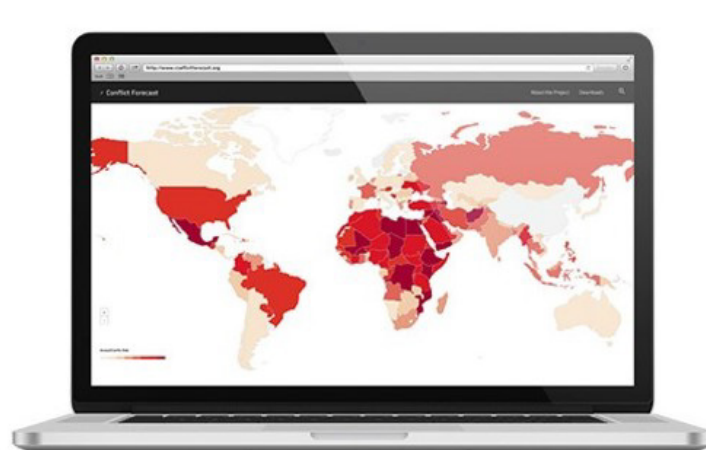

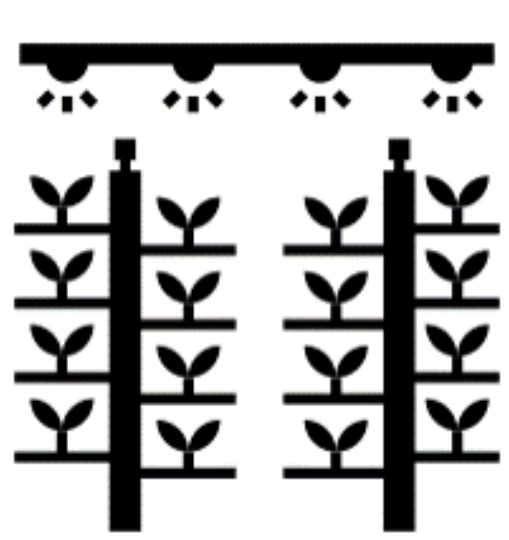

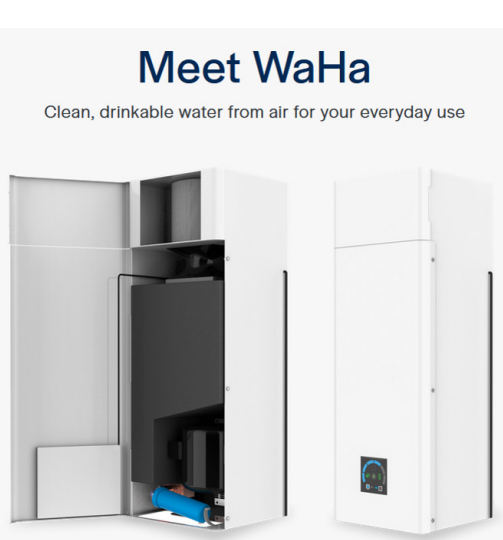

Supporting innovators to serve areas affected by fragility, conflict and migration

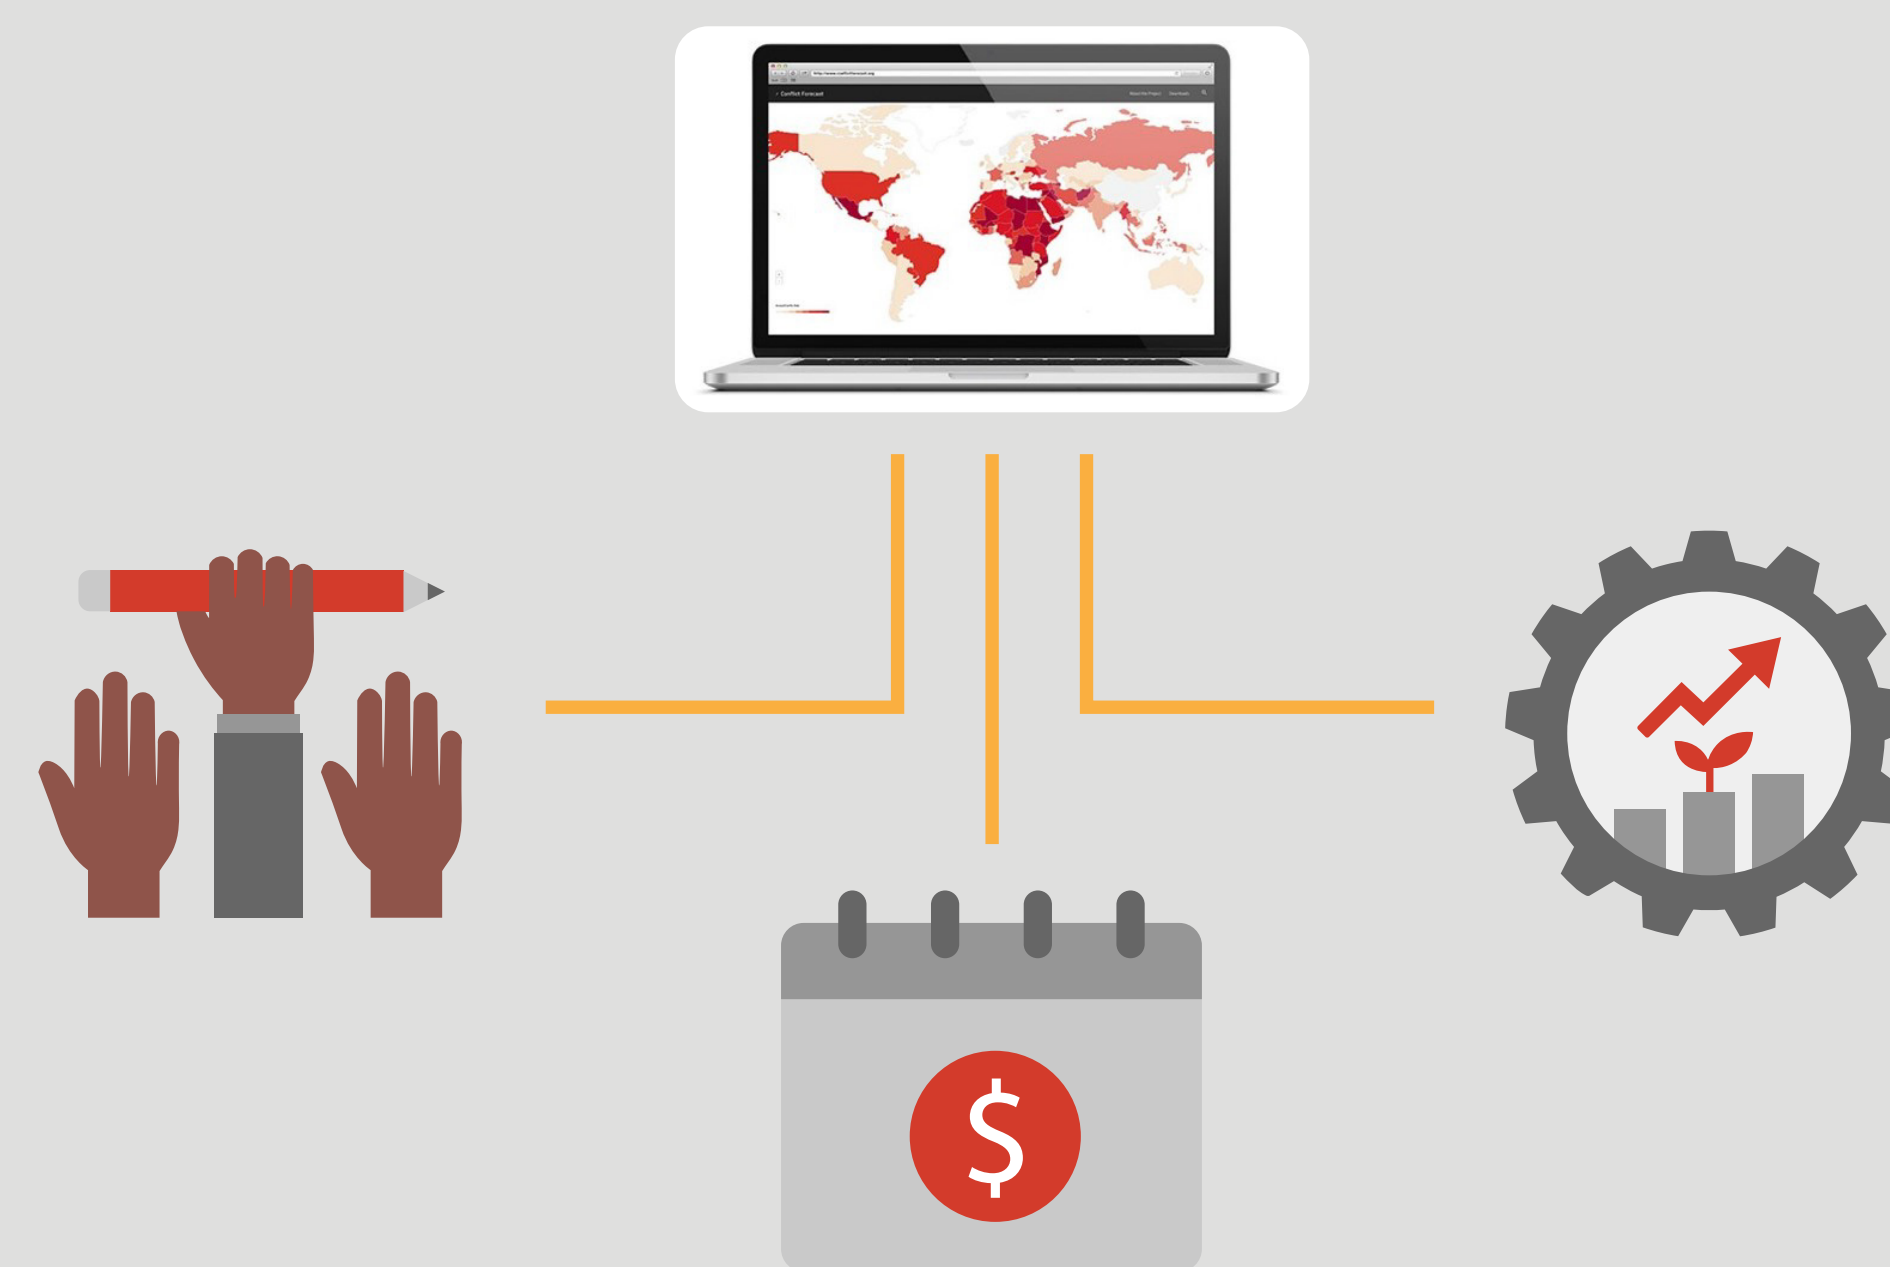

To better serve areas affected by fragility, conflict and migration, humanitarian and development actors can support local innovators in providing clean water, nutritious food, shelter or healthcare. The **Stability and Peace Innovation Accelerator** program offers the combined expertise of the **CGIAR** and **WFP Innovation Accelerator** to high-impact innovators from Jordan, Kenya, and Nigeria.

/ Conflict Forecast

Innovation packaging

Combining a core innovation with products, services or processes to make it more affordable, available and accessible.

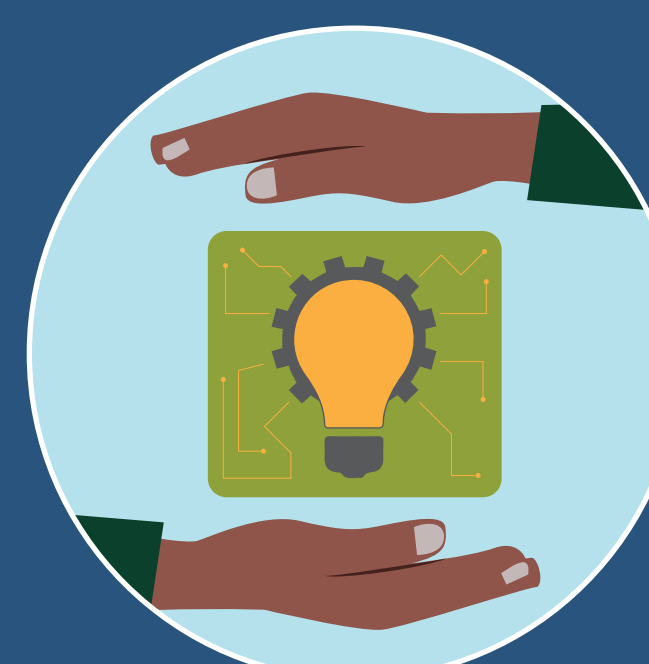

Lessons learnt & achievements

The Accelerator has raised **awareness** among innovators, innovation users, and actors of the enabling environment.

It provided **knowledge**, **network**, fostered **resource mobilization**, assisted in **testing** the innovation, and helped in **mitigating risks**.

It built **capacity**, guided the innovators through **novel processes** and **endorsed** the innovation to the level that it has proven to achieve impacts.
