

MAUI WILDFIRE RECOVERY: THE 'OHANA HOPE VILLAGE

INTRODUCTION

In August 2023, we quickly delivered 160 CN20 units within 9 days of the tragedy through air, land, and sea, in collaboration with local partners, NGOs, the Hungarian Government, and NATO, to offer a sustainable rehousing solution for those affected by the deadliest US wildfire in a century.

THE CONCEPT

- ▶ A dignified living environment for 350 disaster survivors
- ▶ Arrived on-site with shelters 9 days after the fires
- ▶ 100% off-grid operation
- ▶ Rent-free housing
- ▶ 100% privately funded

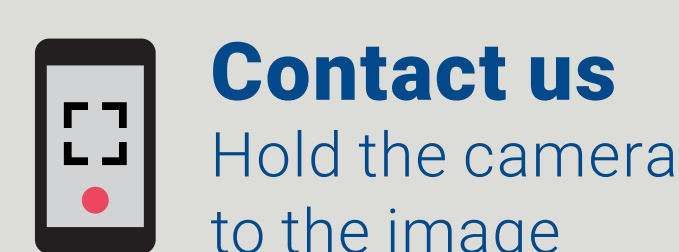

LONG TERM IMPACT

- ▶ OHV in Lahaina (relocating the homes closer to the disaster area)
- ▶ OHV for the pre-fire homeless community
- ▶ OHV as pre-positioned stock for future emergencies
- ▶ Establishing a new standard for temporary housing

THE CONCEPT

KEY DESIGN FEATURES OF OHV ON MAUI INCLUDE:

- ▶ Quick and efficient installation
- ▶ Prioritized comfort and safety
- ▶ Modular design for families of various sizes (multigenerational)
- ▶ Preservation of traditional Hawaiian lifestyle with shared dining and common spaces
- ▶ 100% renewable solar energy
- ▶ Playgrounds, community spaces, and gardens for residents
