SOFTWARE

ClaroPDF

"We recommend this app lots for our students who struggle with reading and/or writing. It is a very user-friendly interface."

"This PDF Reader/Annotator is arguably the best in the Store. It is, as far as I know, the only PDF Reader that offers a choice of background color. When this feature is combined with a very wide range of annotation tools, the colors of which can be adjusted at will, one has an annotation palette that is unsurpassed and easy to use."

ClaroSpeak

"This app is absolutely brilliant! ... I have the PC version of ClaroSpeak, I thought I'd try the app version, so glad I did ... This app has really helped me with my studies."

"Very easy to use. Works as expected. Allows editing and resumes speaking from the cursor. All great functionality for the price."

Claro MagX

"I just downloaded this app, and have found it to be very useful. I use it for lots of things including reading menus, reading prescription bottles, reading business cards, and so much more."

Claro ScanPen

"Amazing has helped me with my dyslexia. If you have dyslexia or anybody around you has dyslexia you should talk about this app of them because it is very helpful!"

ClaroCom

"We truly believe this is the best AAC app we have personally used and reviewed from personal use. The pro upgrade is one of the best things you can buy for yourself or a loved one who needs an AAC app."
