

# CLARITY

## Catchbox

Engage your students with the microphone that can be thrown around!

- \* Simple and fun to use
- \* Customise it with your own school colours and logo
  - \* It's light, soft and bounces if dropped
  - \* Audio automatically switches off when in motion
- \* The Teflon anti-bacterial coating repels dirt and resists stains. It's also easily replaceable or interchangeable with different cover designs.

Get the students actively involved in discussion and idea sharing

### Choose the microphone to suit you

The colourful box is fun to use and throwing it around engages students while breaking the ice and lightening the mood. It promotes discussion and the sharing of ideas, and can be used for different types of events, including assemblies, class activities and even parents information evenings.

The Catchbox system is designed to integrate with your existing sound system. Connection is easy enough to be carried out by you, or you can appoint Clarity to complete this.

**Catchbox Module** allows schools to use their existing belt-pack radio microphone systems or to use with a new radio microphone system.

**Catchbox Lite** includes a wireless microphone system that connects into any audio system. The system is ideal for smaller venues.

**Catchbox Plus** includes a wireless microphone system with rechargeable battery and option for wireless charging. It allows you to connect two Catchbox transmitters to the same receiver simultaneously and is ideal for larger venues.
