

# PERFORMANCE TECHNOLOGY FOR EDUCATION

*Lighting, Sound, Staging and Video*

# Experienced Education Providers

Stage Electrics has specialised in education venue installation for over 30 years, with experience in new build and the refurbishment of performing arts projects. With 200 staff located throughout the UK, Stage Electrics is one of the largest providers of technical theatre in Europe, with clients ranging from primary schools to West End theatres. With a huge wealth of experience our fully qualified staff offer system design, supply and installation of technical equipment.

# fully trained and approved

## COMPLETE INSTALLATION SERVICE

Stage Electrics offer a complete service to education and professional theatre which includes the supply and installation of stage lighting, sound, video, stage curtains, staging and rigging.

We provide electrical and mechanical installation for performing arts and media equipment and infrastructure, including containment and cabling to current IEE Wiring Regulations.

Stage Electrics' successful projects include school stages, multi-purpose halls, drama studios, music schools, multi-media facilities, theatres, recording studios and media suites.

As an approved dealer for the leading brands of equipment in the entertainment industry, Stage Electrics' staff are fully trained and approved to install specialist technical equipment.

*Stage Lighting • Sound • Video • Stage Curtains • Staging • Rigging*

## PERFORMING ARTS SPECIALISTS

Stage Electrics regularly works at the highest levels within professional theatre and is at the forefront of technological developments in performing arts. We integrate these developments into performance spaces to ensure the installation is not only technologically current but also applicable to curriculums for Drama, Media, Visual and Performing Arts: at GCSE, AS Level, A Level, BTEC, NVQ and Degree Level.

## DESIGN & PROJECT MANAGEMENT

Our experienced designers offer advice, equipment specification, layout drawings and detailed plans for all projects. In addition our team of project managers offer expert project management from concept to realisation.

# knowing education inside out

## TESTING, INSPECTION & MAINTENANCE

We offer ongoing support for all of our installations. With a dedicated team of engineers who provide support through annual inspections and testing of electrical & mechanical systems. Our technicians also offer regular maintenance, service and repair visits. This ensures your venue remains ready to use and has all the necessary certification to satisfy statutory, insurance and licencing requirements.

## INSTALLATION CREDENTIALS

Stage Electrics is an NICEIC approved specialist electrical contractor and is accredited with a variety of essential health & safety and training credentials. Our staff are DBS checked and we are members of the leading industry association PLASA.
