

Built for everything the future holds.

While our traditional understanding of classrooms has changed forever, the possibilities for education are broader than ever. No longer defined by four walls, classrooms the world over are now being defined by the human connections and learning opportunities that flourish when teachers and students come together using technology built for education.

As a provider of trusted hardware, intuitive software, and innovative solutions that support distance learning for all kinds of learners, Lenovo ensures that, no matter what's happening beyond the classroom door or where the classroom happens to be, education is one thing that students—and their parents—can always count on.

technology
for all**

Lenovo

LENOVO DEVICES ARE BUILT FOR LEARNING ANYWHERE AND EVERYWHERE WITH:

ANCHORED KEYS

We encourage curiosity, even if our devices become the object of interest. Our anti-pry keys are designed to stay in place no matter how hard curious minds try to remove them.

DUAL CAMERAS

Our 720p self-facing and 5mp world-facing cameras enable students and teachers to create and share content and stay connected with each other in more meaningful ways.

INTEGRATED STYLUS

When teachers and students need finer details and more precision, an optional active electrostatic pen is at their fingertips—it recharges while garaged, so it's always ready.

WATER RESISTANCE

Spills and splashes are bound to happen—from the chemistry lab to the kitchen table—but a little liquid is no match for our water resistant (up to 330 ml) keyboards.

IMPACT PROTECTION

360° rubber bumpers, reinforced glass and buttons, and impact-tested touchpads provide assurance that learning won't be interrupted even if the device takes a tumble.

OPTIONS TO FIT ALL ECOSYSTEMS, GRADE LEVELS, AND NEEDS

- Chrome and Windows OS devices
- Tablets, 2-in-1s, and Laptops
- Devices as light as 1.14 lbs
- Up to 16.5 hours of battery life
- Up to 256GB of storage
- WiFi and Bluetooth® connectivity

If you feel like you're having to relearn how to teach as schools move online and back again, you're not alone. Lenovo is here to support educators with technology as well as training. Ask your Lenovo representative about our professional development courses in distance learning.
