

LapSafe® 

# About Us

## Experts in Self-Service Solutions

### Proudly British

We are proud to design and manufacture in the UK and always try to support local businesses

### ISO Accreditations

Quality and best practice is assured by ISO 9001:2015 and being environmentally friendly by 14001:2015. We choose to work with partners of the same standard

### CE Certified

Our products are fully and independently CE Certified and rigorously tested to withstand the test of time

### Vastly Experienced

Our team have over 20 years experience providing safe charging solutions.

### Highly Rated Support

Our teams are dedicated to provide the best possible after sales and customer support to our customers

### Warranties

Our parts and labour warranties give customers peace of mind knowing the products will always be supported. See [lapsafe.com/warranty](https://lapsafe.com/warranty) for full details

*“One of the benefits of going with LapSafe® is the Account Management is really well handled. It is not intrusive, they are not constantly on the phone to you but they are there when you need them and are very helpful. We’ve now had the unit for about twelve months and so far we’ve found that every time we’ve needed some help or advice LapSafe® have been there for us and been really supportive.”*

**Westminster Kingsway College**

## ISO 9001: 2015

Our team work hard to ensure that we manage our systems and processes with consistency whilst meeting all regulatory requirements. It is important to us that we provide quality products that meet our customers' needs and deliver excellent sales and after-sales service.

ISO 9001:2015 ensures that we continuously monitor our performance whilst making improvements as and when required.

## ISO 14001:2015

LapSafe® is always looking at ways in which we can reduce waste management costs and help protect our environment. To demonstrate this, we have introduced the global standard ISO 14001:2015 which helps us comply with the increasingly stringent environmental laws and regulations, as well as building trust with our customers.

## Safety As Standard

Without Compromises

Often regarded as 'the standard' by which other companies benchmark their own products, LapSafe® employs rigorous quality assurance systems and constantly researches new ways to easily manage mobile devices in volume as well as combat theft of IT.

Our patented power management system is second to none and meets or exceeds British safety standards and HSE guidelines.

At LapSafe®, safety comes as STANDARD with ALL of our storage and charging trolleys, lockers and solutions. Every product is fully CE certified by independent or notified bodies; we hold ISO 9001:2015 and 14001:2015 certification and choose to work with partners of the same standard.

*“We felt that automating our laptop loan service would free up staff which would enable them to give more face to face help to the students. This is why we chose to go down the automated route, we wanted to be able to offer to our students a service with a quicker turnaround, and having it available for them 24 x 7”*

## Would You Recommend LapSafe® FLEX?

*“Definitely, they look very smart and really fit in to the surroundings, the staff and students love the look of them. They can be colour co-ordinated and are very secure. Because we have a member of staff to allocate the laptops, we can tell how many are out. We would definitely use them again they are the best and most cost-effective solution we found.”*
