As a Headteacher, we know that you and your team are expected to have an accurate overview of your daily teaching and learning. We know that this knowledge provides the secure foundation for your successful school improvement strategies. Nautilus will enable you and your team to monitor and evaluate using your ipad or tablet. Your feedback and analysis will then be presented on your Headteacher dashboard and PDF reports.

Giving clarity to school leaders

Achieve a greater level of reliability and accuracy with multiple observations and multiple observers. Nautilus is designed to be quick, flexible and collaborative. Assign learning walks and observations for your middle, senior and subject leaders. Validate your views with your external colleagues, governors and other school leaders. View your outcomes and analysis on your online Headteacher dashboard and simple PDF reports. Perfect for same-day teacher feedback, school-improvement purposes as well as your big accountability meetings.

Build an accurate and credible self-assessment of your school together with your team.

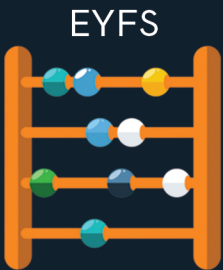

Snapshot Learning Walk. Multiple observers, multiple observations.

Behaviour and Attitudes. Learning walk.

SEND Drop-in Observations.

EYFS

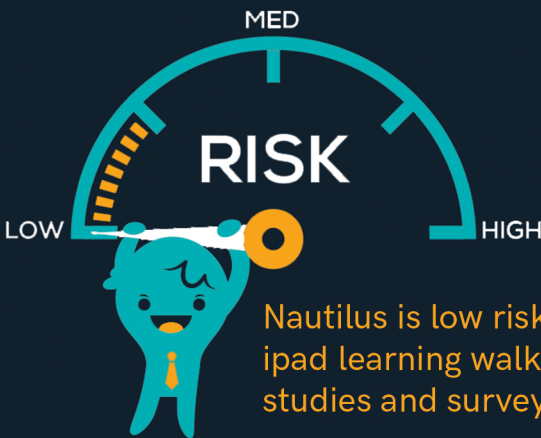

Parent & Pupil Surveys.

Your pupil books reflect your school's curriculum. Avoid time consuming book studies that lack focus and detail. Our book study is designed to ensure that your team can quickly and accurately assess each core area of your teaching and learning.

You can either edit our descriptors or you can create your own in minutes with our Builder. This feature will enable you to write your own bespoke learning walks, observations, book studies or surveys. Perfect for focusing on those critical areas of your choice.

Nautilus is low risk because you can add our ipad learning walks, drop-in observations, book studies and surveys to what you already do.

For £300

Created by a Headteacher for Headteachers and school leaders.
