**FORWARD ORDERING
SERVICE NOW AVAILABLE**

Dear Customer,

Thank you for your order, we hope that it is exactly as you expected.

We have included this so that you might pin it up and always have our details to hand. You may not know but the easiest way to order is through our website. We will always ask you the day that you would like to take delivery of your order. Please allow time to defrost your order.

You may also be interested to know that we have designed our offering around those with limited freezer space. As such all you have to do is remove the top piece of insulation and the entire box can be stored in the kitchen freezers as all of our samples are fit for human consumption.

Please regularly check our website for new video content, lesson plans & risk analysis.

We hope that you have found our service valuable, feel free to like us on Facebook or follow us on LinkedIn.

As always any feedback is gratefully received.

From,

All the team at samples for schools.
