Access Thousands of 2D & 3D Objects

Not having enough resources can be such a pain. Luckily, you can find thousands of 2D & 3D objects in Assemblr EDU, ready to use for your lessons! Alternatively, you can also import objects from other 3D marketplaces.

Make the Abstract Concrete

Present any difficult concepts in a much, much concrete visual! Enliven your lessons and let your students grasp the whole concept better.
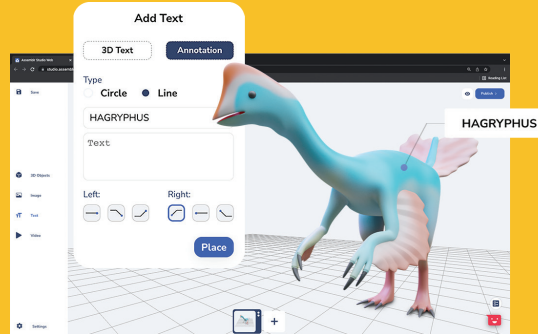

Fostering Creativity

Get your students on board! Let them express their ideas on the Editor to build awesome creations. Learning gets much more fun when you do it together!

Express your ideas in 3D & AR

Can't find the topic that you want? Try creating your own and be creative! Even better, you can use Assemblr Studio Web to create in a bigger space.
