ReaderPen™
SECONDARY

Improve student support, maximise learning and free up valuable teacher support time. The ReaderPen™ supports thousands of students every day at home and at school to read.

"There was a significant increase in reading comprehension levels which resulted in 72% feeling their reading had improved. Teachers reported increased independence, and engagement with tasks."
– Mortimore, Bath Spa University Study

le reading intervention for limitless learning.

Achieve inclusion and improved wellbeing with reading accessibility.

"

"I use the ReaderPen™ to scan words and then it reads it back to me. I find it to be really good. I want to use it for reading because sometimes when I read or when I speak, I get a little bit anxious and frustrated so it really helps me get better. It helps me stay calm. It's helped make me be more independent from adults. I don't need to ask an adult for help with the ReaderPen™."
- Student, Charlton Park Academy

"I would definitely recommend the ReaderPen™ to other schools for students that you know want to do well but then need that to a bit of support, it has been absolutely brilliant." **- Vicki Ford, English Teacher, Harrow Way Community School**

"I use the ReaderPen™ to read most of my work. It helps a lot with spelling and understanding the text. I have used it since Year 7 and it has helped a lot."
- Year 9 Student, Priestnall School

Helping Everyone Achieve

www.readerpen.co.uk

The ReaderPen™ is a hugely versatile reading aid, providing limitless learning opportunities for your students. The ReaderPen™ is a stand-alone digital pen that supports English, French and Spanish. The device has three main properties: text reading using a high quality natural speaking voice, multiple dictionaries, and capturing text remotely to file or directly to a cursor point on any computer. Simply select your application, scan, and enjoy the benefits!

- Scan printed text to hear aloud or via headphones
- Multiple accents included
- Record/ listen to audio
- Scan text straight to devices

- Supports English, French & Spanish
- 8GB storage
- Closes the reading gap
- Raises literacy acquisition with a clear digital voice

- Promotes reading independence and inclusion with its discreet design
- Supports social distancing in classrooms as an alternative to a human reader
- Personally customisable allowing change of reading speed, pause time, left-handed or right-handed, and much more
