

Why Proctorio?

01 Proctorio was created to expand learning opportunities to test takers everywhere.

02 Proctorio is limitlessly scalable.

- Automated Proctoring can scale to meet the needs of any institution.
- The failover system allows zero loss of data or interruptions. If a data center goes dark, the data held will automatically fall over to the geographically nearest data center.

03 Proctorio is designed with test taker privacy in mind.

- That's why Proctorio integrates seamlessly with any LMS. Test takers are never required to enter any additional PII to enter an exam.
- Proctorio is the only solution to utilize zero knowledge encryption for stored data. It only becomes unencrypted when accessed by an approved individual at the institution.
- Not even Proctorio has access to any of the exam-related data.

Proctorio is partnered with **+700 institutions**

Proctorio has proctored **+18,000,000 exams**
