Be inspection ready

A simple yet powerful leadership and management tool that helps schools prepare for inspections in a fraction of the normal time.

Inspection Coach was written in partnership with Focus Education, a company that has provided advice and support to schools for 25 years.

Our “Virtual Inspector” takes you right through the school self-evaluation process, making sure you haven’t missed anything and that you show your school in the best possible light.

Key features

- A unique “Live View” of every area in the new OFSTED Inspection Framework, allows you to immediately see what your school does well and where improvement is needed.
- Upload evidence to share with staff and governors and create actions for your school improvement plan as you go along.
- It follows a process of self-evaluation that is used in thousands of schools already.
- A self-evaluation summary draft document is automatically produced for you to edit online or export to Word or PDF.
- Unlimited and online access for the senior staff, governors and key staff.
- Access your self-evaluation and evidence anytime,

“ Your software helped us to go from Requires Improvement to Outstanding. ”
