

LetsLocalise

Bringing Schools and Local Communities Closer

It takes a village to raise a child and a community to raise a school

LetsLocalise is a **FREE** digital platform designed to create and foster long-term partnerships between **schools and local communities**. When businesses, community groups, and schools work together to support learning, pupils can achieve their goals, develop more rounded, mature personalities and enjoy better health.

Our platform has the tools your business needs to enhance your corporate giving strategy towards education. It's a WIN-WIN for everyone!

(UNSDG, 2021)

Our mission is to help 1 million children, join us, together we are stronger!

LetsLocalise testimonials

*"We are thrilled to be working with LetsLocalise to help bring communities together to support their local schools. The platform allows schools to easily publish a drive for resources, funds for projects and volunteering opportunities for their community to see. Schools are constantly facing budget challenges and **I believe this platform can help schools engage with their local communities.**"*
