- Helping to finance your project
- Manage the roll out
- Provide it support
- Help educators take learning to the next level

Every child is born full of creativity.

Nurturing it is one of the most important things educators do.

Creativity makes your students better communicators and problem-solvers. It prepares them to thrive in today's world — and to shape tomorrow's. Apple is constantly creating resources to help educators do just that. Not only powerful products, but also tools, inspiration and curriculum to create magical learning experiences and make every moment of screen time worth it.
