# Showbie Complete

Showbie's most comprehensive plan offering advanced features and partner applications for learning.
About Showbie

Showbie is the hybrid learning platform empowering educators to quickly and easily deliver personalized feedback to students of all learning abilities, on any device, in class or remotely.

With a variety of built-in annotation tools that can be placed on any file type, students can demonstrate their learning in the way that suits them best. Designed for the way teachers work, Showbie makes it easy to manage their classroom workflow, saving them time for what matters most—teaching and learning.

Empower Staff

Streamline teacher workload with time-saving tools including Quick Marking.

Easy Technology

Share content, host a video lesson, assess students, mark, and provide feedback.

Community

Encourage transparency and feedback across administrators, teachers, parents, and students.

Leadership Tools

Get school and district level insights—view trends, progress, and areas requiring support.

showbie

Showbie Partner Applications

Empower teachers with the tools they need to create and share interactive lesson content, and inspire students to demonstrate their learning with engaging partner applications.

socrative

Socrative—A Showbie Company

In 2018 Showbie acquired Socrative, an application that empowers teachers to easily create formative and summative assessments. Fully integrated within Showbie Pro, Socrative makes it easy for teachers to visualize student learning and progress in real-time.

Explain Everything

Collaborative Whiteboarding

Explain Everything allows teachers to create engaging lessons and students to demonstrate their learning in creative ways from anywhere. With an infinite canvas you can combine sketches, images, documents, videos and then use voice and annotations to enhance your explanation.

Happy Teachers

90% Of teachers agree that Showbie improves teaching efficiency.*

97% Of teachers agree Showbie helps provide formative feedback.**

"We started with a few staff members using Showbie to share work with students. After they saw how easily they could share feedback and store classwork, the demand for Showbie kept rising. Now 90% of our staff use Showbie for storing, marking, and sharing work on a daily basis."

Dave Monk
E-Learning Development
Coordinator, Harlow College, UK

"An easy to use, accessible platform which enables high-quality learning and teaching to take place, including giving effective feedback to students.

Teaching and learning at Castlemilk High School has changed forever thanks to the use of technology and Showbie."

**Lynn Gibson**
Headteacher,
Castlemilk High School, UK

showbie

Showbie Leadership Tools

Easy implementation and powerful administrative features let you stay on top of school and district activity all within Showbie, so that you can keep the focus on teaching and learning.

No IT Setup Required

Easy to set up and even easier to use, Showbie provides the essential tools for assignments, feedback, and communication in one app.
Cross Platform

Take learning anywhere—Showbie works on desktop, iPad, Chromebook, Android, or any other mobile device.

Unlimited Cloud Storage

With no restrictions on file upload size, users have free rein to share, archive and store assignments, resources and a variety of multimedia content.

Admin Analytics Dashboard

Get up-to-date insights into teacher and student engagement at the school or district level, view trends, progress, growth and areas requiring support.

Auditor Access

Monitor teaching and learning across a school or district and get full access to Showbie classes and assignments. Plus, easily access students' accounts to quickly reset lost passwords.

Easy License Management

From a school or district level, effortlessly manage Showbie deployment and get a full view of all teachers and students.

MDM Configuration

With customized configurations and easy-to-manage deployment to devices, Showbie ensures secure student access.

Use with Google & Microsoft

Showbie integrates into any teaching environment, working seamlessly alongside Google Workspace for Education and Microsoft 365.
