The hybrid learning platform.

showbie

About Showbie

Founded in 2012, Showbie has quickly become the hybrid learning platform of choice for educators, schools, and districts.

Showbie empowers millions of educators to quickly and easily manage classroom workflow and deliver personalised feedback to learners of all abilities on any device. The platform connects administrators, teachers, families, and learners of all ages to build a trusted community that fosters transparency and enriched learning.

We are proud to support over 3 million global users in 188 countries, including the largest 1:1 Apple education device deployment in Europe, and two of the UK's largest 1:1 device deployments—Glasgow City Council and Oasis Community. Districts such as Greenland and large parts of Norway have also chosen Showbie as their platform of choice.

Key Features

| Cross Platform | Share Any File Format | 30 Minute Voice Notes | Quick Marking | In-App Video Chat | Admin Analytics Dashboard |

Boost creativity and collaboration with multimedia partner applications

Showbie is the heart of your classroom where your workflow and classroom communications take place. With our partner applications teachers can create captivating lessons and tutorials, track learning with easy assessment tools, and inspire students to articulate their learning.

socrative

Socrative—A Showbie Company

In 2018 Showbie acquired Socrative, an application that empowers teachers to easily create formative and summative assessments. Fully integrated within Showbie Pro, Socrative makes it easy for teachers to visualize student learning and progress in real-time.

Explain Everything

Collaborative Whiteboarding

Explain Everything allows teachers to create engaging lessons and students to demonstrate their learning in creative ways from anywhere. With an infinite canvas you can combine sketches, images, documents, videos and then use voice and annotations to enhance your explanation.

Take your classroom to the next level

Showbie + Google + Teams

The education technology world is typically very loud, and there is often the misconception that schools have to choose between Showbie, Microsoft Teams or Google Classroom. Showbie works synchronously with these platforms, as the central organizational tool for assignments and assessment, taking teaching and learning to the next level.
