SMART THERMAL KIOSK

COMMERCIAL GRADE SCREENING SYSTEM

- Good for high traffic areas, like schools, factories, warehouses, offices, stores. Much faster than hand-held temperature gun.

- Collects answers to health questions before scanning with state-of-the-art touchless pad. Questions are customizable.

- Works with DYMO printer to print name tags for each scan with pass/fail and date.

- Supports multi-location & rooms, web-based administration, pdf & excel reports per location or combined.

- Records all users temperature & time of scan via facial recognition or RFID scan (ID Badge swipe) in the cloud.

- Privacy mode can be enabled to store only Pass/Fail instead of temperature for maximum privacy requirements.

- Sends email & SMS alerts for high & abnormal temperature or absence of mask.
