## SIMPLIFY YOUR CLASSROOM REGISTRATION WITH **INVENTORY'S CLASSMARK CLOUD**

ClassMark is a revolutionary system that simplifies classroom registration, making it easier than ever to keep track of your pupils. The new InVentry ClassMark Cloud has been developed so it links straight to your MIS system, allowing your organisation to take a register in as little as 3 clicks! You'll never be without the key information you require to ensure all students are present and correct.

### CLASSMARK CLOUD KEY FEATURES

- 
**INVENTORY CLOUD INTEGRATION**  
 Each register can now be written back directly to your MIS system, ensuring accuracy and efficiency of your registration records
- 
**EVACUATION**  
 Your school's registrations link seamlessly to our InVentry Anywhere App, meaning your MIS Evacuation lists are constantly live, and up to date.
- 
**WEB BASED**  
 Network interconnectivity is no longer needed with our InVentry Cloud ClassMark, meaning all you need to access the system is a web browser and some form of cellular or WIFI connection!
- 
**EASILY ACCESSIBLE**  
 Whether you're using a laptop, PC, an Interactive Whiteboard, or a tablet device, you can access registers via a 4-digit pin number, meaning the system has never been easier to use.
- 
**PUPIL REGISTRATION**  
 Give students a new level of independence by allowing them to sign themselves in via InVentry's Pupil Mode.
- 
**ALL PUPIL REGISTER**  
 Have the power to take your portable device out to a late school bus and sign in pupils at the school gates via our reductive search tool, minimising groups of pupils waiting in reception.
- 
**MULTI VIEW REGISTERS**  
 Have access to other teachers registers and easily sign in their class when needed.
- 
**PUPIL RECORDS**  
 Easily access a pupil's record for their dietary, medical, and contact information.

TAKING A REGISTER HAS NEVER BEEN EASIER!

## SAFEGUARD SCHOOL CLUB PUPILS WITH **CLUBREG**

Although schools regularly look to improve security and functionality of their regular sign-in and registration system, all too often breakfast, and after-school clubs are overlooked. With InVentry's ClubReg, staff leading extracurricular activities are provided with a digital registration system which ensures the safeguarding of pupils at all times.

### CLUBREG KEY FEATURES

- 
**SIMPLE SETUP**  
 Custom groups and clubs can be setup in minutes on your main InVentry console with student information added directly from your MIS.
- 
**PUPIL REGISTRATION**  
 Give your students a new level of independence by allowing them to sign themselves in, freeing your staff up to attend to other tasks.
- 
**DEVICE COMPATIBILITY**  
 With ClubReg there is no expensive hardware to install, and it can be accessed and used on any device including large interactive displays or WIFI connection!
- 
**SECURE**  
 Sign In information is securely transferred over InVentry's central database so staff instantly know which children are still in school.
- 
**EVACUATION**  
 Access complete registers for your entire school in real time across multiple devices when completing any type of evacuation.
- 
**SAFEGUARDING**  
 Anyone can create clubs quickly and easily and ensure that safeguarding of children out of hours is maintained.
