

Inspire your Secondary School Students to Chat!

Nualang provides students with highly-engaging language communications practice as they interact with “Nualas” — the platform's irresistible chatbots. An innovative World Language Learning platform, Nualang is designed to help students excel in their reading, writing, listening and speaking skills.

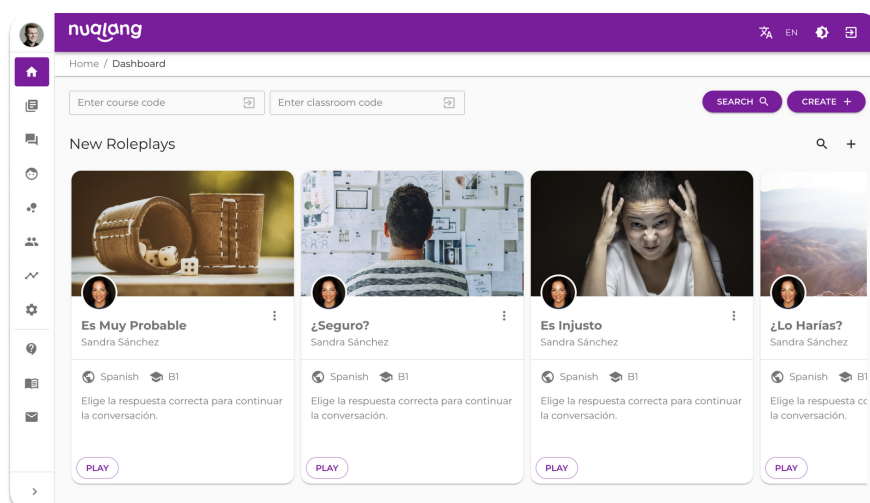

We created a platform that allows teachers to...

- easily create or adapt fun lessons that build speaking confidence
- provide personalised and authentic practice
- share their creations with others

Why try Nualang?

It's ideal for supporting the interpersonal, interpretative, and presentational requirements that come when learning a language and when preparing for the GCSE's, A-Levels or planning for Exchange Students and Travel Groups!

Nualang supports your teaching style and helps you differentiate learning for your students, whether you need to offer targeted practice, pronunciation support, expand your online language classroom, or create courses.

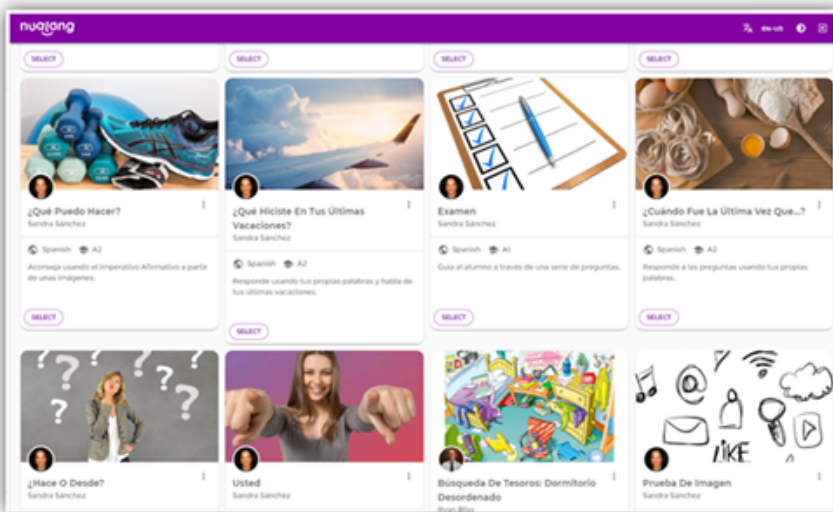

Nualang is
perfect for....

- Year 8 - Year 14
- Spanish, French, German, Italian, Portuguese and English

- Individual teachers
- Schools and Communities
- Language Centers
- Grinds/Tutors

- In-person Teaching
- Online Classes
- Blended or Hybrid
- Homework/Practice

It's easy to get started!

Step 1

Sign up for an account

Step 2

Find or create your lessons and content for your students.

Step 3

Invite your students to get started reading, writing, speaking and listening with confidence!

FUN Translation, Listening and Pronunciation practice

Nualang automatically generates exercises for your students based on your phrases list. Students get the support they need as they practice and complete exercises.

Exercises

Translation

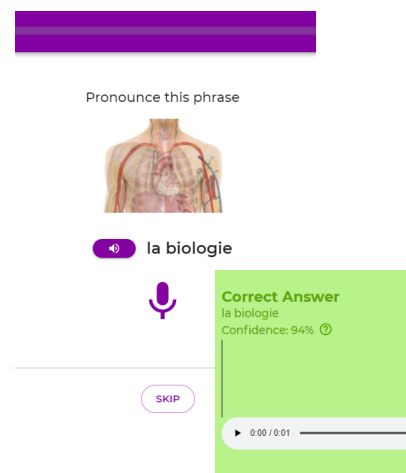

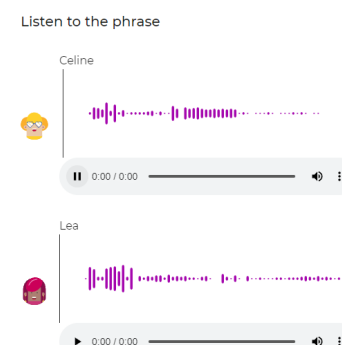

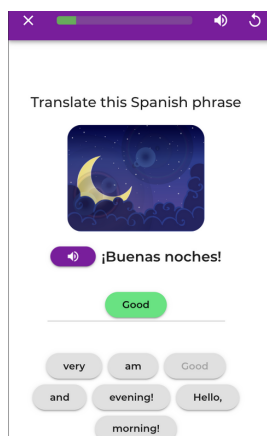

Students translate phrases with or without word prompts.

Listening

Students can listen to different pronunciations or dialects. Teachers can also upload their own voice recordings.

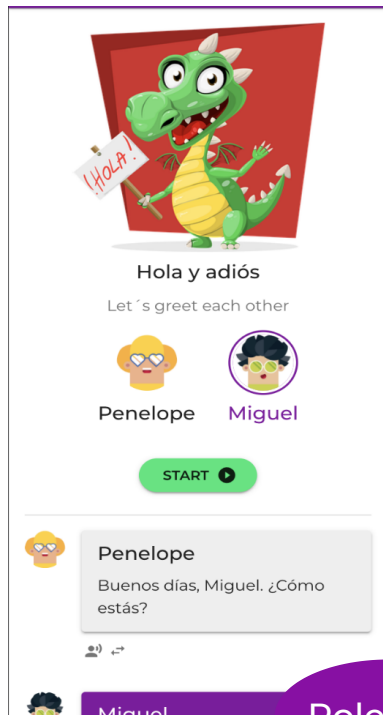

Pronunciation

Score of their pronunciation and have the opportunity to listen or re-record.

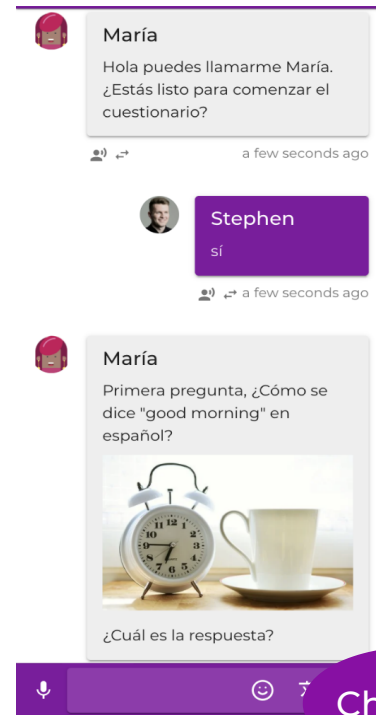

Roleplays and Chatbots

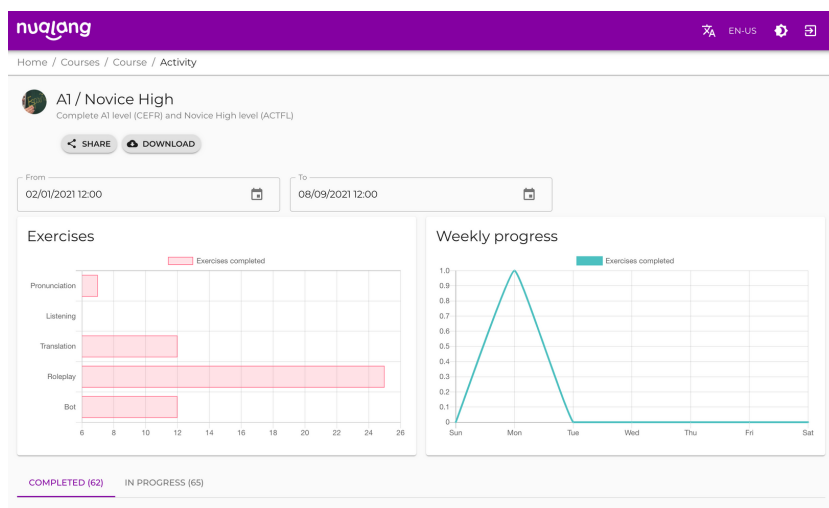

Help your students deepen their language and conversation skills even more with Roleplays and Chatbots! Roleplays are scripted conversations and students play their part. Chatbots are more flexible and replies can vary – just like a real conversation!

Role Play

Chatbots

See How Your Students are Doing!

Student reports and student recordings are available for all exercises, activities and quizzes in the teacher dashboard.

Get started today!

We attract a community of talented languages teachers who love to create and share courses and lessons. Find a great lesson today — copy, tweak and make it your own! Find out about getting a subscription for your school today!
