## Teacher Portal

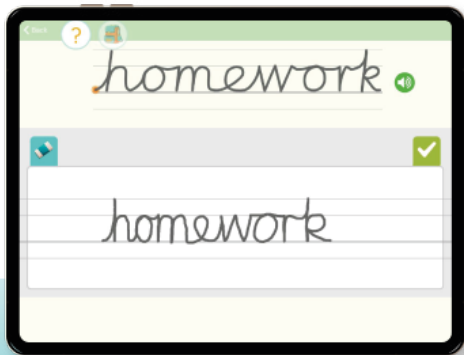

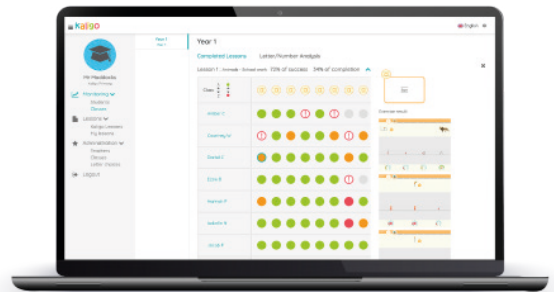

### Lesson Planning

Tailor Kaligo to match your school's handwriting policy, thanks to our customisable letter choices. Create lesson plans for the whole class, working groups and individual students, or why not choose from one of our 1000 pre-loaded lesson plans from the Kaligo Library?

### Student Monitoring

With Kaligo, easily track the progress of individual students and classes with real-time, replayable video feedback. Kaligo reports to teachers on a child's letter shape, direction, order, line spacing and even pen-lifting! Our letter and number analysis tool empowers teachers to identify areas of improvement at a class and student level.

### Remote learning

Creating work for students to complete at home couldn't be more straightforward with Kaligo. Students can access Kaligo at home or on the go thanks to our homework QR codes, available on both iPads and Android tablets, sending all results automatically to the teacher!

## Testimonials

"The results on handwriting with Kaligo have blown us away, with one pupil moving up two-year groups in just a few weeks."

Sophie Lamb, Digital Lead at Kender Primary School

"Kaligo is perhaps one of the most impressive classroom tools we've seen. The improvement in our pupil's handwriting in a very short space of time has been really impressive!"

Andrew Clark, Deputy Head at St James' CE Primary School.
