ICT Solutions for Educational Establishments

In partnership with

After a hiatus of 4 years, we at Misco are delighted to be back at Bett.

We live in challenging times with exceptional, unprecedented problems and barriers to learning. During this period of disruption, it has been vital for educators to think outside the box and solve problems creatively.

Armed with more EdTech solutions and resources than ever before, educators have the opportunity to reimagine traditional models of pedagogy so that students can plug into a personalized, future-facing learning experience and become resilient, creative lifelong learners who can harness their knowledge and skills to tackle the challenges of tomorrow.

Sustainability is also at the fore, and we owe it to the younger generation to do better in this area - Something Misco is working hard to address through our new recycling and carbon reduction initiatives.

We hope you have a great show, and do pop by the stand to say hello.

Lee Dutton
Group Sales Director

Today's students are tomorrow's professionals - helping to shape industry, science and progress. Our teachers and leaders demand performance, reliability and flexibility.

Engage your students with interactive content and unleash their creativity with the iiyama LFD touchscreens. Let's make teaching and learning even more fun! The 04 SERIES from iiyama empowers all education, training and presentation environments to seamlessly deliver engaging content, collaborative tools and thanks to their hybrid solution deck of Android and Slot PC features, you can be sure that no matter what your Interactive aspiration, iiyama has the simplified solution just for you.

Infra-Red Touch technology guarantees superfast, accurate, smooth and stable interaction with multiple touch points. The anti-glare coating absorbs the ambient light and ensures image clarity at all angles. The AG coating also gives a smooth, fluid touch - important for handwriting/ annotation exercises.

With sizes from 65", 75", 86" and 98" everyone will benefit from the flexibility and clarity that the 04 SERIES delivers.

04-SERIES CAPTIVATE YOUR AUDIENCE

PURETOUCH-IR

Delivers 1 mm touch accuracy for the smoothest and fastest annotation with 20pt infrared touch technology.

STANDALONE SOLUTION

Slide-in a Slot PC and unlock all of the control, security and flexibility of Windows 10 IoT, including the entirety of the Microsoft eco system.

iiWARE 9.0

Features Note, Browser, Cloud Drive and the option for you to sideload relevant apps you require for your organisation.

SCREENSHARE PRO

Supports AirPlay, Chromecast and Miracast to easily share, stream and edit content from your device to your 04 Series and vice versa, back to your notebook, tablet or phone.

SECURITY

Utilise Screen lock and USB passcode protection to ensure user security and the new Clean app will clear all data and passwords used.

USB-C CONNECTION

Supports the latest in video, audio and touch signal via a single port and even charges your device with 65W power delivery.

Providing a high-quality, digitally connected learning environment, Ubiquiti Networks deliver reliable, high-performance connectivity at a highly competitive price point.

**Disruptive price/
performance breakthrough**

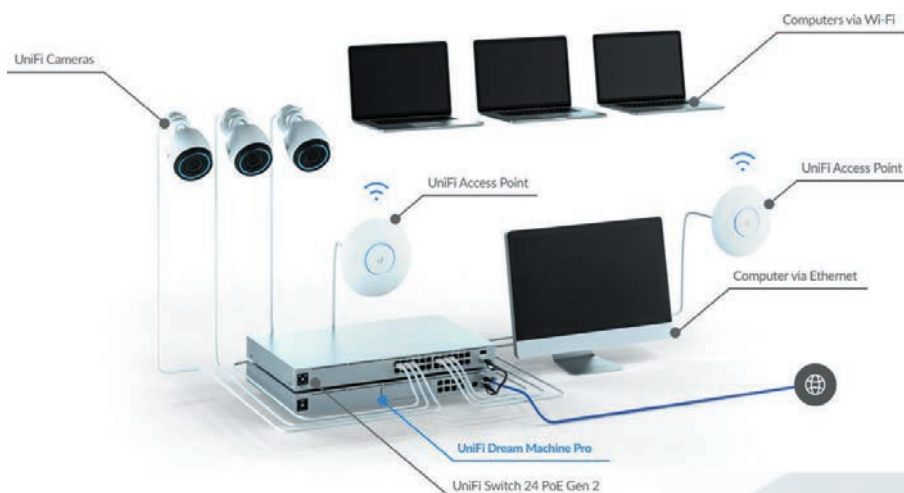

Designed to power networks that scale

**UniFi OS designed for
multi-application use**

Seamless integration within a single management interface

**Seamless network
integration**

Use UniFi Dream Machine as your UniFi OS Console

**The standard for

high-performance
switching**

Industry-leading user experience and value

Acer Reliability Promise

Acer products are built and tested to last, incorporating innovative features designed to withstand the wear and tear of everyday use. At Acer, we are so confident in the quality of our products that we're proud to offer the Acer Reliability Promise on the whole professional product range.

Challenge Acer business product for reliability.

By purchasing a qualified Acer professional product until 31st of January 2022 and registering it within 30 days, will allow you now to claim 100% refund of the full price paid if your Acer device develops a fault and is repaired under warranty within the first year.

Don't miss the valuable opportunity to protect the investment by purchasing an Acer professional product. Register your device to the Acer Reliability Promise.

How it works

Claim refund of the full price paid for your qualifying Acer product should your new purchase develop a technical fault within one year of purchase. To register for Acer Reliability Promise just follow these simple steps:

ONE: Buy an Acer product

Purchase an Acer product that qualifies for this offer.

TWO: Register your purchase

To register your purchase, visit the Website, click on the Register link, and enter the requested information within 30 calendar days of purchase. The first day of purchase as detailed on your invoice or receipt counts as day 1.

THREE: Proceed with your claim

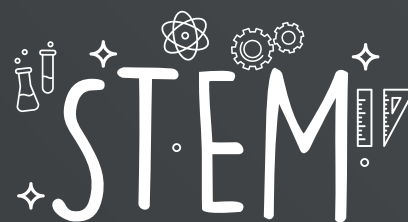

Should your new purchase develop a technical Fault within one year of purchase, simply call our dedicated warranty number 03717601000 to report your technical fault.

Frequently Asked Questions

- Q. I have bought a product that isn't on the list of qualifying products, can I still participate?
- A. *No, only qualifying products listed on the site are eligible for this promotion*
- Q. I have missed the window to register my product; can I do this after 30 days from my invoice date?
- A. *No, you must register within the first 30 days from the date on your invoice, the date on your invoice being day 1*
- Q. How many times can I take part in this promotion?
- A. *You may participate in this promotion up to 20 times provided you have purchased a qualifying product for each registration you make*
- Q. My Acer product has developed a technical fault, what do I do?
- A. *Visit the online Acer helpdesk to report the fault and arrange a repair. In order to qualify for this promotion, the repair must be completed by Acer or an Acer Authorised Service Provider*
- Q. My qualifying Acer product has been repaired under warranty, how long do I have to complete my claim?
- A. *You must register your claim within 30 days of the date on your repair receipt provided by Acer or an Acer Authorised Service Provider*
- Q. Once my claim has been approved, how quickly will I receive my refund?
- A. *If your claim is successful, you will receive your refund by bank transfer within 30 days of your claim being validated*
- Q. How can I submit my proof of purchase receipt/invoice?
- A. *Please upload a copy of your invoice/receipt during the registration. If you are unable to do so please email a copy of your invoice/receipt, along with your claim number, to help.promise.uk@acer.com from your computer or smartphone partners, and institutions.*

EVEN MORE VALUE FROM ACER

Get even more value from your 1:1 programme with these additional offerings from Acer.

acer | rewards

In partnership with Tablet Academy, Acer's STEM Rewards Programme is helping schools to deliver STEM learning and increase science literacy to develop the next generation of innovators. Each time you purchase 25* devices, you'll have the chance to claim up to £500** worth of STEM rewards for your school.

Choose from the following rewards:

Half-day on-site workshop for students

Up to 4 hours of remote training to support teachers in delivering remote learning or to embed the use of technology in lessons

12 months' access to Online Professional Development Platform including over 40 video-led training courses designed to upskill teachers in using technology

Strategic Consultancy - develop or review a digital strategy based around cloud technologies and mobile devices

Support for IT staff looking to deploy and manage solutions like Microsoft Teams, Intune and Autopilot

STEM Shop Credit - £350 credit to use in the Tablet Academy STEM Shop where you can purchase robots, drones and a range of other STEM solutions.

Acer Academy

Acer for Education is fully committed to supporting schools and institutions on their journey towards implementing innovative collaborative learning environments to meet the challenges of the 21st century. Offering finest technologies, educational

contents and solutions, our goal is to help teachers and educational institutions empower students to become proactive, respectful, and socially aware individuals who can become the leaders of tomorrow.

Our goal is to bring innovative technologies to schools supporting educators to create the perfect learning environments to develop the skills students need for their future.

Acer Academy is a dedicated programme that offers tailored training and demos to accompany you in your journey to discovering and mastering the most advanced education solutions and tools.

Acer Upgrade Programme

Claim up to £150 cashback when you trade in old student and teacher devices - choose to receive the cash or put this towards your STEM rewards.

* Acer STEM Rewards is applicable to Windows devices only. Acer Upgrade Rewards is applicable to qualifying devices only, please check for full list.

** Purchase 100 devices and claim rewards up to the value of £1000.

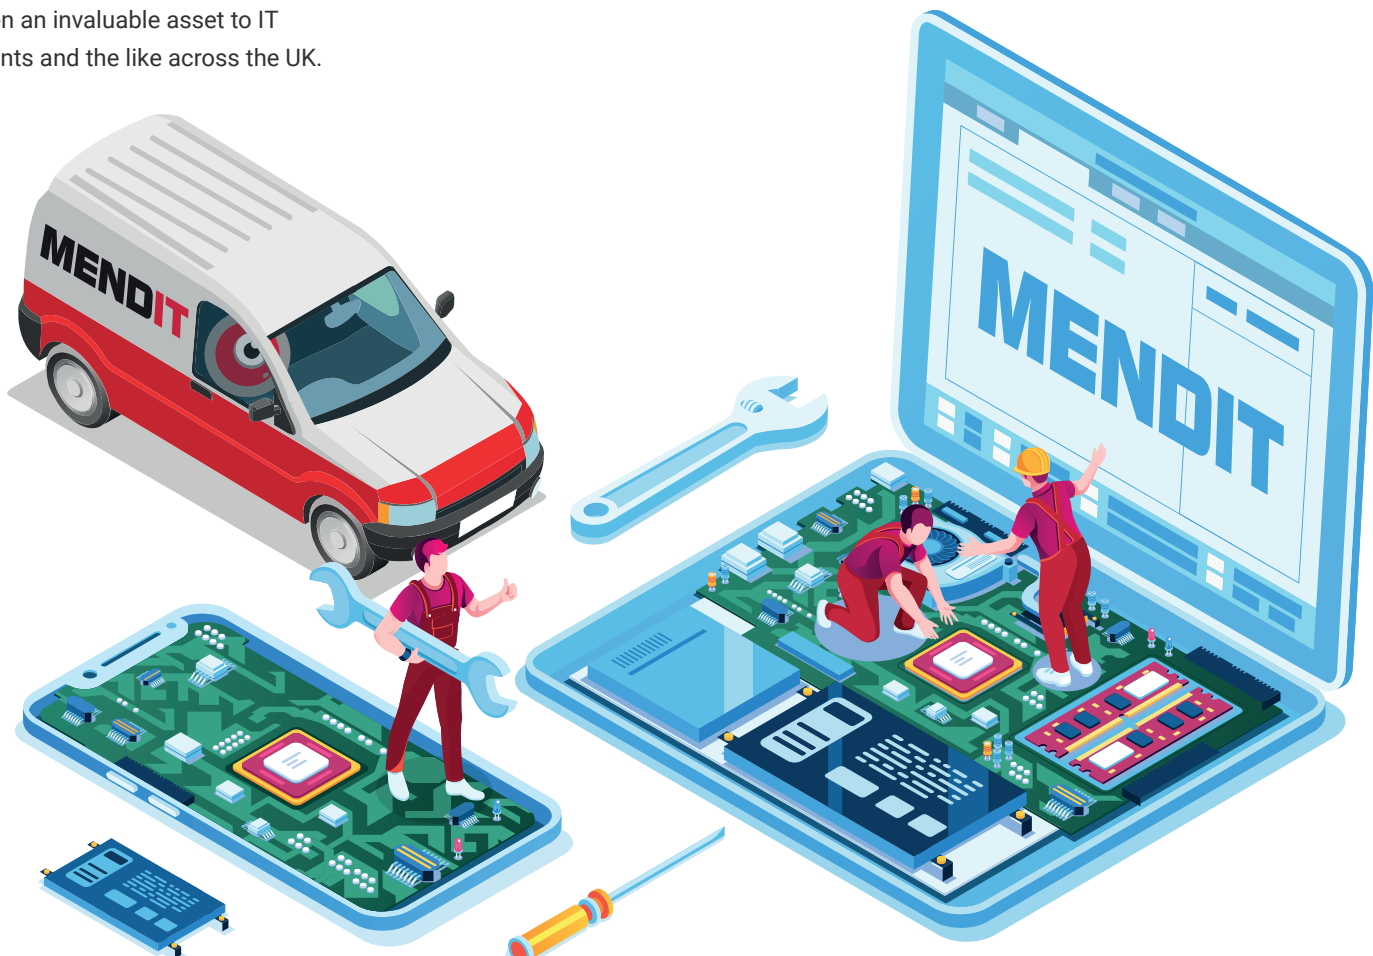

Protecting and respecting your Misco investment with MendIT

MendIT are a specialist support & service provider, helping educational institutions across the UK manage their faulty and/or damaged PC & Mobile estates. With multivendor training and a wealth of experience provides support across all major manufacturers of equipment allowing MendIT to consolidate your support needs. Simplifying the service has proven an invaluable asset to IT departments and the like across the UK.

We know and understand the importance of continual learning and supply a range of products and services to aide when the unexpected happens whether breakdowns or damages.

Repair work, Extended Warranty, Maintenance, Insurance, and other SLA enhancing services.

Protect students, and staff from ransomware and other advanced threats.

Provide a safe and secure computing environment—both on and off campus.

Modern literacy requires a digital education. Campus-wide broadband and 1:1 computing deployments were underway long before COVID-19 and the emergency transition to remote learning. Digital transformation expanded learning opportunities but also created pathways for online bullying, cyberattacks, data theft, and more. The post-pandemic lockdown phase of education is an opportunity for schools to reimagine the way they deliver instruction. The safest way forward is to build with security in mind.

Barracuda can help protect students, and staff from criminal attack.

EMAIL ATTACKS

Malicious email attachments can lead to ransomware and other costly attacks.

WEBSITE ATTACKS

Automated attacks on school websites can disrupt school business and interrupt student learning.

RANSOMWARE

Criminals can encrypt data and threaten to leak student records if schools do not pay.

BYOD AND 1:1 DEVICE SECURITY

Protect students and enforce security policies regardless of device location.

SAFE COMPUTING ENVIRONMENT

Provide a safe, policy-driven learning environment to all students.

DATA PROTECTION

Protect student records and other data from human error, hardware failure, natural disaster, and other unexpected events.

From pre-school to post-grad: Three ways Brother is supporting IT professionals in education

For more than 25 years, Brother has been supplying schools, colleges and universities with technology they can rely on to boost productivity and deliver new cost efficiencies.

Our solutions are used across the education sector to print, scan, manage vital documents and adopt secure visitor systems, freeing-up IT professionals to spend more time enhancing the learning environment.

Here are three ways that Brother technology is helping them tackle their challenges.

OPTIMISING WORKFLOWS

We know that increasing productivity is a top priority for IT professional working in education.

Our range of solutions are loaded with features to improve workflow, streamlining a wide range of common processes, like using the new Brother ADS-4900W device to scan and automatically send documents to a selected destination for storage.

And of course, Brother technology seamlessly integrates with your existing software.

Functions like these can support greater collaboration and efficiency, freeing-up staff to spend more valuable time with students.

BALANCED DEPLOYMENT

This means strategically placing the right technology in the right place, which plays a key role in ensuring workflows are as efficient as possible.

For example, the art department may need to print and scan in colour, while reception may only need to print occasional labels for visitor badges in black and white.

Rather than centralising technology, which creates distance for users and can result in queues and delays, devices should be placed to reflect the requirements of different users. This also creates safer working environments by providing smaller machines with touch-free solutions for each department, which reduces the amount of indirect contact.

As part of its managed print service offering, Brother undertakes detailed audits for its customers to identify opportunities for balancing the deployment of products and solutions to reduce costs and boost productivity.

DIGITAL TRANSFORMATION

Schools, colleges and universities are looking to digitise their operations, from digitising documents like attendance records, end of term reports and permissions slips, to automating workflows in departments like finance and HR to boost efficiency and accuracy.

Brother is helping customers tackle this by enabling them to unify and automate their print and scan workflows with Kofax intelligent management software - a single, integrated print, capture and output management solution that allows users to work with a single interface across their devices.

peerless-AV[®]

We consider a solution to be more than the product itself.

EDUCATION

With products tailored to classrooms and lecture halls, our mounts, AV accessories, carts, stands, and digital signage solutions enhance the learning experience. Peerless provide AV solutions for both K-12 public and private schools, and colleges and universities - for campus communications, auditoriums, gymnasiums, lunch rooms, libraries, and more.

COLLEGES & UNIVERSITIES

Technology is a natural part of communicating and learning for today's students. Peerless-AV's solutions provide richer, more collaborative learning experiences inside school laboratories. Assignments and tests can be improved with desktop and tablet mounts, while flat panel and projector mounts enhance the viewability of the curriculum.

K-12 PUBLIC & PRIVATE SCHOOLS

Today's students desire an active learning environment - expecting more from their classrooms than ever before. Working closely with educators and technology experts, the Peerless-AV team has focussed on designing comprehensive solutions designed with collaborative learning in mind, meant to engage students in the educational experience.

LUNCHROOMS

Capturing students' attention can be challenging. They are surrounded by digital messaging everywhere they turn - even during lunchtime.

Take your cafeteria to the next level by adding or upgrading your digital signage networks. Install digital menu boards to display your daily menu, nutritional information, upcoming events and more, all while keeping the lines moving and the students engaged.
