

Create your own Unlimited Learning Ecosystem fully personalized for your academic community

Before

Fragmented, limited, and complex experiences between learning platforms, databases, and other scattered content access points.

Monotonous and inflexible online learning experiences, resulting in lower engagement and motivation from the community.

Highly competitive job market, where it is essential for all to continuously cultivate needed skills on-demand and in a manner that supports and enhances everyone's individual abilities.

With your own Unlimited Learning Ecosystem

Integrated and frictionless experience: Access to up to **3 million learning resources and activities, all in one platform**. Access both **online and offline** on all devices. Access all key formats, of your own or licensed, such as PDFs, ebooks, audiobooks, videos, podcasts, and many more.

Personalized, data-driven, and truly engaging experience that **can increase learning habits by up to 3-5x**. An enjoyable and simple consumer-grade experience for all!

Personalized learning resources and experiences on-demand to fill critical skill and knowledge gaps. **Infinite possibilities** of topics to learn for everyone, either independently or with peers, **just a few clicks away!**

Build a culture of Unlimited Learning with an exclusive solution, customized to your academic community.

Set yourself apart from the competition with a fully customized offer for your students, educators, staff, and alumni.

Unique and infinite learning possibilities using high-quality content, e-learning technologies, and a variety of services to ensure strategic alignment with your academic goals.

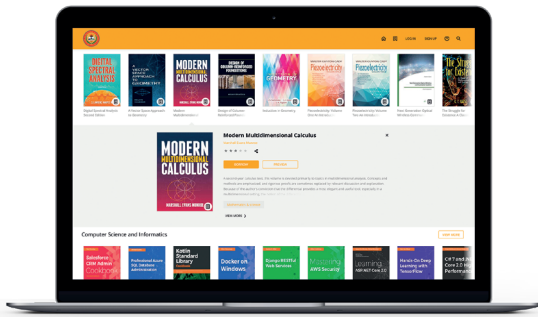

We adapt to your pedagogical preferences for today, tomorrow...and the unexpected.

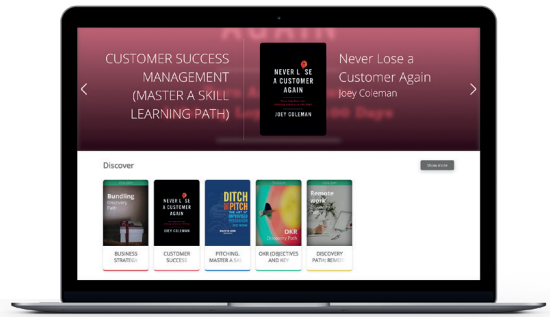

A true partnership: we provide an exclusive and customized managed service to ensure your community is actively engaged and supported at all times.

With your own Unlimited Learning Ecosystem you will have access to:

Personalized recommendations
among thousands of multimedia content in text, audio or video format from the best providers in the world.

A fully integrated platform
interactive learning experiences with all types of content to support all learning possibilities: virtual classroom, individualized learning paths, collaborative learning, student orientation, social clubs, learning communities, and many more

You choose the content and formats that best suit the needs and values of your organization.

Each user proactively learns the topics that interest him/her and the formats that best suit their learning style.

Generate reports on the evolution of each user in real time that allow you to generate valuable data for your institution.

Learning becomes multi-device through computers, e-readers, tablets or smartphones.

Accessible content online and offline.

Integrated experience for students, teachers, administrative staff and alumni to access quality learning resources seamlessly, with a user experience similar to popular on-demand media consumption platforms.

What will your university achieve with ODILO?

Everyone in your community will enjoy lower barriers to learning, doing it whenever and wherever they want

Students will be engaged and motivated, and will maintain a more fluid interaction with their peers, teachers, mentors, and alumni.

Teachers and management can acquire new skills and be better equipped to support your students.

Alumni will stay connected to their Alma Mater, contributing to the development of a robust community and sharing knowledge.

Your university will become an exclusive provider of Unlimited Learning Ecosystems and a pioneer in its region.

These pioneers already have their own **Unlimited Learning Ecosystem** developed by ODILO:

UNIVERSIDAD
COMPLUTENSE
MADRID

UNIVERSIDAD
DE SALAMANCA
CAMPUS DE EXCELENCIA INTERNACIONAL
