Overview of SchoolFox - The All-In-One School App

What is SchoolFox?

- SchoolFox is the all-in-one school app that helps engaging all stakeholders in school. At its core is a school messenger and digital assistant, that allows the school administration and teachers to communicate safely and efficiently with parents, pupils and colleagues. It allows you to find everything you need for your school in one place!
- SchoolFox enables easy school communication, organisation and collaboration (LMS).
- SchoolFox is available as web app for computers and as smartphone app for iOS and Android.
- SchoolFox is intuitive and simple; within just a few minutes teachers can set up and create classes themselves.
- SchoolFox is suitable for all school grades and types. For preschools we recommend using KidsFox, for clubs and associations, TeamFox.

Security & Privacy

- In compliance with GDPR, all data is stored in certified data centres in the EU.
- Approved data processing contracts are provided according to GDPR.
- There is no exchange and display of private contact information, such as email addresses or telephone numbers.
- Quiet hours and availability can be set individually.

The most important features

- Send messages, information, homework, etc. with attachments to parents and pupils
- Keep track of all message confirmations
- Translate messages into over 40 languages
- Timetable and substitutions
- File storage/cloud storage: Share study materials and upload homework (LMS)
- Moderated discussions (group chats) with classes and fellow teachers
- Video lessons with 75 participants
- Create classes and groups
- Digital class register
- Events, surveys and checklists
- Manage absences and school appointments
- Class fund & digital payment feature
- Emergency contact details always up-to-date
- Send emergency messages also via SMS
- Can be integrated with school information systems (SIS)
- Interface to MS Teams, Moodle and Co.
- The admin portal offers:
  - Administration of classes, pupils and teachers
  - Schoolwide messages
  - Consultation days - also via video call
  - Board level: communication & analytics
  - Module system
- Services: Integration of external school partners

Test SchoolFox for free

www.schoolfox.app

Get started with SchoolFox - First steps

Set up your account

- SchoolFox is available as web app and as smartphone app (iOS and Android).
- To start a free test account, go to https://admin.foxeducation.com and select "Register organisation and test for 30 days" at the bottom left and register your school. You will then receive access to the administration portal. Here you can add classes and pupils manually or import them from your school information system (SIS).
- Next, generate individual invitation codes (per pupil) and download them to your PC.
- Now, hand out the invitation codes to the parents or pupils: personally or via email.
- Parents or pupils install the app and register themselves.
- By entering the individual invitation code, the user is automatically connected to the correct class.
- Then, set up the admin portal to take full advantage of all schoolwide features.

Cost & Outlook

SchoolFox is financed exclusively by an annual fee per school.
For current prices, please visit our website my.schoolfox.app/#plan.
Here you can also choose and order a plan for your school at any time.
For further inquiries, you can reach us at sales@schoolfox.app.

Updates & Feedback

The web app and the smartphone apps are constantly improved and updated throughout the year.
We look forward to receiving requests and ideas from users regarding existing and new features. A feedback form is available in the app itself.

Letter of consent

We recommend getting the parents' written consent to use SchoolFox as a communication platform. For this purpose we provide a form which is generated with the invitation codes.

Your checklist

1. Choose a plan or register for a trial phase

2. Create or import classes

3. Generate invitation codes

4. Send invitation codes to parents or pupils

5. Install the smartphone app on your mobile phone

6. Users download the app, register and are automatically connected to their class
