● Classroom

Classroom management software for any learning environment

Impero Classroom puts teachers in control with easy-to-use, cloud-based classroom management tools so they can deliver digital lessons and improve student engagement on five major operating systems.

|				
Windows	Chrome OS	iOS	macOS	Android

Fully integrated with Microsoft Teams

Classroom fully integrates with any Teams created, meaning teachers can monitor student activity in real-time and keep students on task while also taking advantage of all Teams features in one single interface.

Create engaging, focused digital lessons

- ✓ Encourage collaboration
- ✓ Focus learning and remove online distractions
- ✓ Address online behaviour in real time

Encourage digital learning anywhere, on any device

- ✓ In the classroom, remote or hybrid learning
- ✓ School owned or bring your own device technology
- ✓ All major platform operating systems

Support every learner

With real-time visibility of student activity, Classroom allows teachers and support staff to identify students who are struggling with a task or project, discreetly message them, and provide support.

Main features include:

- ✓ **Real-time monitoring**
- ✓ **Launch website**
- ✓ **Tab management**
- ✓ **Restrict browsing**
- ✓ **Send message**
- ✓ **MIS integration**

Backdrop

Putting learner wellbeing at the heart

Classroom is accessed via Impero Backdrop, a free student safety solution for schools to effectively manage and record student safety concerns.

Along with classroom management, you'll be able to use Impero to:

1

Track and report student safety concerns (from first aid, to COVID-19 symptom tracking, to more complex mental health issues) all in one place

2

Easily spot trends and changes in student behaviour

3

Intervene early before a situation escalates

> **New Pastoral Concern**
> 🕐 10 Minutes Ago

> **New First Aid Concern**
> 🕐 15 Minutes Ago
