# With Arbor, schools work better

Arbor MIS helps secondary schools of all sizes work more easily and collaboratively — from free schools to large multi-sites with sixth forms — with intuitive tools designed to make a difference.

“Arbor has been a really great exercise in helping us step back and question the way we were doing things, and asking ourselves: “Why do we do that?” and “Can we do things a different way?” For example, parents’ evenings used to be this massive deal, but with Arbor, it’s easy.”

**Phil Jones**  
Head Of Academy Services at Pool Academy

With over 2,400 schools we’re proud to be the UK’s fastest-growing MIS.

Why Arbor?

# Designed to make a difference

Arbor is chosen by more secondary schools who switch than any other UK MIS.

Our MIS is designed to make a measurable improvement to the way your school works.

We work closely with you to make the move to Arbor as seamless as possible, and then support you long term — helping your whole school work together in Arbor with confidence.

# 92%

save time with Arbor compared to their previous MIS

“With Arbor we can evidence that we know what’s going on with our students and the impact of what we’re doing! Arbor made our Ofsted inspection easy – we could quickly create reports and make crib sheets for our staff by quickly drilling down and pulling out trends.”

**Martyn Essery**  
COO at The Reach Free School

How it's designed

# An MIS for everyone at your secondary school — at last

We believe secondary schools work best when all staff have access to a single MIS, so we've built tools tailored to teachers, office staff and leaders.

Every feature has secondary school best-practice built in, using our deep experience working in and with schools.

Plus, Arbor is rated the UK's most intuitive MIS

## For SLT

Easily understand the health of your school:

- Built-in dashboards
- Summative assessment dashboards
- Custom Report Builder

## For Teachers

Plan your day and find what you need, fast:

- My Classroom Manager
- Interventions Tracking
- Student Profile

## For Office Staff

Everything you need to run a tight ship:

- Custom Report Builder
- School Census Wizard
- Live feeds with Google Sheets, Excel and more

## For Parents and Guardians

- Stay in the loop with The Parent App

How it's designed

# Create a joined up school

Arbor acts as a single source of truth for your staff, supporting your whole team in one, shared system.

With shared data, workflows, comms and information, it's easy for your staff to work together and spot patterns, solve issues and plan ahead.

# 30%

saving on your systems costs by bringing everything together in Arbor

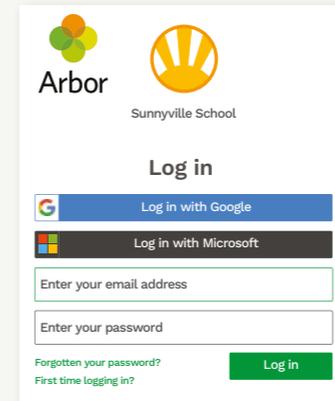

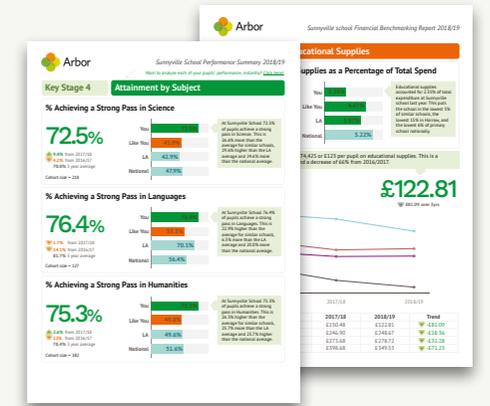

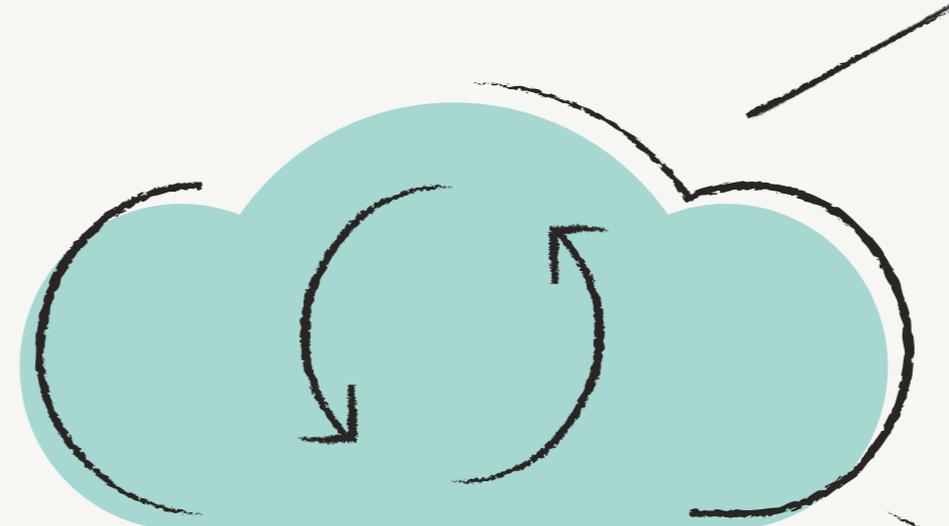

Connect to 4Matrix, Edval, Timetabler, CPOMS, Civica and more

Or you can replace the tools that aren't working for you with Arbor's built-in options.

Create consistency and manage complexity

With thoughtful automation and reporting, Arbor makes it easy to standardise the way you implement policies across your school.

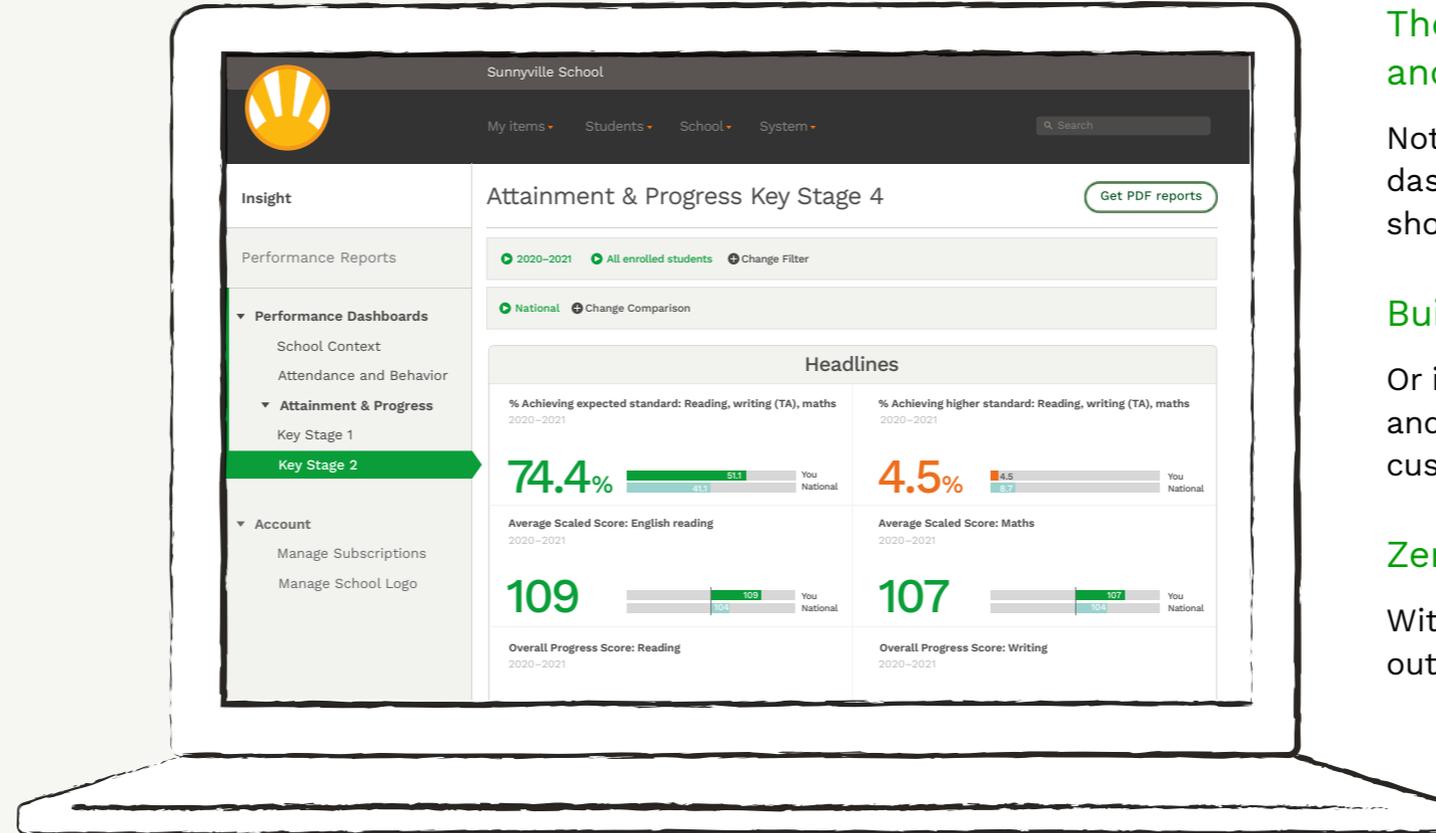

Cloud-based convenience

Let your team work remotely and flexibly — access your MIS from anywhere and protect your data better, with no server bulk or costs.

How it's designed

# A truly data-rich platform

Arbor combines data from the DfE and Ofsted with your student, staff, finance and HR data in our market-leading data warehouse — giving you access to a well of powerful insights.

“Arbor has improved the statistics that we can get to allow senior leadership teams to make better informed decisions to drive improvement. The right information is in the right place at the right time, for example, detentions are now automated to send a report to Form Tutors two minutes before afternoon registration. This has helped improve students’ behaviour.”

**Matthew Passey**  
It Manager at Irlam & Cadishead Academy

The best of deep data analysis and at-a-glance updates

Not got much time? Our beautifully designed dashboards are tailored to specific staff roles, showing you the information most relevant to you.

Build and schedule custom reports

Or integrate with tools like Excel, PowerBI and Google Data Studio to visualise and customise your own.

Zero-in on impact

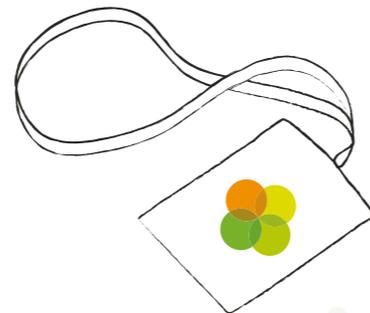

With clear call outs and analyse, Arbor helps cut out the noise so you can see what's important.
