

VIDEO FEEDBACK & ASSESSMENT SOFTWARE CHECKLIST

Does your video assessment software tick all the boxes?

Video feedback and formative assessment software are becoming a staple in higher ed tech stacks. Higher ed institutions' **video assessment usage skyrocketed** during the pandemic, and **tech reports** show no signs of a slow down.

To help you invest in the best solution out there, here's a checklist to make sure your video feedback and formative assessment software support reliable, objective, flexible and secure learning experiences.

Below is the checklist. Each box you check off from the list is worth a point, and there are 25 possible points.

Reliability & Objectivity

Reliable and objective assessments that measure skills and competence are the backbone of any video assessment software.

My Assessment Tool

- ☐ Records evidence of skill competency
- ☐ Allows instructors to provide contextual feedback for skill growth
- ☐ Includes viewing controls such as pause, slow motion, rewind and fast-forward
- ☐ Utilises rubrics for objectivity and inter-rater reliability
- ☐ Complies with WCAG 2.1 and VPAT/508 accessibility standards
- ☐ Uses AI technology to display real-time closed captions
- ☐ Stores videos for five years
- ☐ Provides unlimited, cloud-hosted video storage

Flexibility

Education today requires tools that work on campus, online and in hybrid learning environments, so strive for a video assessment tool with gymnast-level flexibility.

My Assessment Tool

- ☐ Gives instructors and students access anytime, anywhere
- ☐ Integrates with your LMS
- ☐ Is a web-based platform
- ☐ Provides an accessible student mobile experience
- ☐ Records with multiple digital devices such as smartphones, webcams and laptops
- ☐ Accepts all common file types to upload videos
- ☐ Features customised rubrics, markers and library content
- ☐ Offers more than one type of feedback such as video, audio or written
- ☐ Supports synchronous and asynchronous feedback
- ☐ Supports multiple cameras, screen recording and slide sharing features

Security

With more flexibility and online learning comes more protection against cyber threats and enhanced security.

My Assessment Tool

- ☐ Offers EU cloud-hosted, high-security data and video storage
- ☐ Protects videos with enterprise-grade encryption, security and data controls
- ☐ Utilises single sign-on and multifactor authentication
- ☐ Sets all videos to private by default
- ☐ Ensures student account and grading information is private
- ☐ Restricts access to the instructor, student, IT administrators and authorized reviewers
- ☐ Complies with GDPR standards

Count off the number of boxes you checked.

Your Score __ / 25

What's your readiness score?

25: Congratulations! You have the perfect video feedback and assessment tool.

20–24: You're close, but there's room for improvement.

15–19: You may want to consider looking for a new assessment tool.

10 or less: It's time for an upgrade.

Whatever the world throws at us post-COVID, video feedback and formative assessment software can help your students develop competent and confident skills in all learning environments. The key is investing in a video assessment solution that checks all the boxes for reliability, objectivity, flexibility, and security.
