At JTRS, we believe in a sustainable future. We all bear the responsibility to future generations, so they can live in a less wasteful world, use renewable energy and be successfully sustainable.

To celebrate JTRS achieving 'carbon-neutral' status, we have launched 'Eco Action' to help highlight our responsibility to the planet and this starts with our climate positive 'Class Act' subscription.

We have chosen Ecologi as our partner to help offset any carbon generated through a number of initiatives, such as:

- Wind power generation
- Rainforest preservation
- Using waste biomass to produce electricity

For every carbon initiative, we will provide a Carbon Credit Certificate, highlighting the total carbon offset for your records.

Ecologi
