

Build, Code and Play with Robots

FRANCHISE OPPORTUNITY

INTRODUCTION

RoboThink is an exciting and unique kid's education franchise focusing on STEM enrichment: Science, Technology, Engineering & Math. RoboThink Franchisees offer educational and fun classes, camps, workshops and events in robotics, coding and engineering.

In today's fast changing environment, it has never been more important than now for children to learn 21st century skills like coding and robotics.

Now, you can join the STEM education revolution with RoboThink, the world's #1 STEM education franchise. With the RoboThink franchise program, you can immediately take advantage of our established curriculum, our full suite of support services and proprietary learning system.

Perhaps more than anything else, you benefit from the satisfaction and appreciation you'll receive as you provide helpful, fun and quality edu-tainment services in your area.

RoboThink is the largest STEM Education Franchise in the world educating 50,000+ children in 21st century skills

RoboThink franchises are present in every major market across 15+ countries and our family of franchisees are growing every day. The popularity of our STEM programs stands testament to the quality curriculum, products and service that RoboThink is known for.

STEM
Programs

The RoboThink Difference

Through the RoboThink robotics kit and entertaining lesson plans, students learn about engineering, programming and digital literacy.

For the parent, their child is learning valuable 21st century skills. For the child, it's fun play! RoboThink programs spark children's interest in STEM, heightening their esteem and boosting their self-confidence. Understanding how computers work and a solid foundation for problem solving will prove to be invaluable tools in our students' futures.

RoboThink's R&D team is constantly hard at work developing innovative new curriculum, hardware and software to keep RoboThink at the pinnacle in the STEM education market.

The Best
+ Franchise System

You're in Good Company

With RoboThink, you're in business for yourself, but never by yourself. In exchange for your commitment to RoboThink, you will receive a protected territory to expand and develop your business. We will also provide:

- + A full set of franchise documents, manuals and educational materials
- + Comprehensive training and consulting on how to apply RoboThink materials
- + Professionally developed marketing tools and artwork
- + Advice on recruiting instructors and students
- + Guidance on opening and operating the business

As a RoboThink franchisee, you own and grow your own business. You offer materials and services that are at the cutting edge of the STEM education industry. You are part of a valuable resource to children and parents, who in turn will recommend your business to friends and family. And, you make a real difference in your local community. It's a contribution of which you can be proud.

Join us and deliver a Unique & Proven STEM Program

If you have...

- + Experience or an interest in working with Children?
- + Solid business management abilities?
- + Want to get in on the fast growing STEM education industry?

Find out how a RoboThink franchise can make a difference for you!
