

We talk constantly about how LbQ is beneficial for teachers and their pupils, so we thought it would only be right for you to hear it straight from the horse's mouth.

Miss Lindsay

Assistant Headteacher, Croxby Primary School in Hull

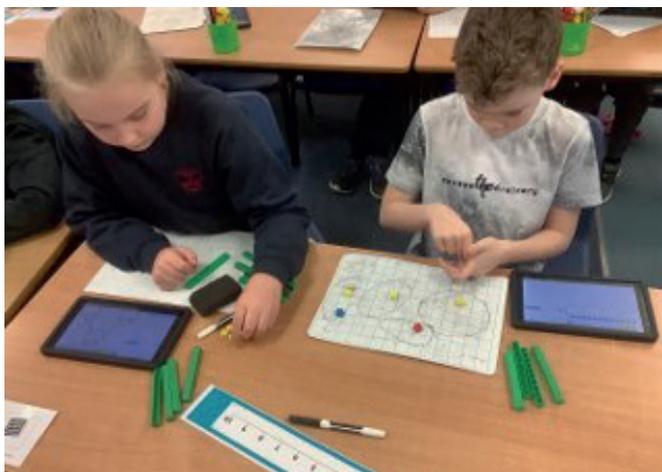

"LbQ is at the heart of our KS2 maths curriculum and also supports our reading, grammar and science curriculum. Our pupils and teachers love using it and the feedback it provides the teachers and the pupils is invaluable."

WEALTH OF DATA

Miss Lindsay, Assistant Headteacher at Croxby Primary School first trialled LbQ in 2019 and instantly saw how it would fit in with the school's vision for using technology in maths pedagogy.

"We loved the live feedback and how it provided teachers with a wealth of data during the lesson which they could act on without delay. We also knew our pupils would be excited use the programme in their maths lessons."

"We have enjoyed maths the most this term because it is really fun using LbQ on our tablets!"

Year 4 Pupils, Croxby Primary

INSTANT IMPACT

Croxby brought LbQ into the classroom to improve upon the advancements they had made on their maths results, and they saw an impact instantly!

"As an academy, we had already made significant improvements to our end of KS2 maths results and we were striving to become even higher performing. We saw LbQ as a way of delivering the highest quality live feedback, which could have an instant impact on children who were struggling in the lesson."

"The impact that this programme could have on teacher workload and wellbeing was also evident, which is something we always consider when making a change to teaching practices."

PUPILS LOVE IT!

"Our KS2 pupils love using LbQ for their maths lessons – especially as it has replaced their maths books!"

"Every class in KS2 uses LbQ every day. Pupils are answering more questions than they ever would have managed in their books and working at a level that is right for their own learning. In the Autumn Term of 2021, our KS2 children answered 250,000 maths questions!"

DIFFERENTIATION, SCAFFOLDING AND SUPPORT

“LbQ has been particularly impactful with our SEND pupils due to the fantastic scaffolds and visuals it provides in level 1. It also allows the teachers to set a second question set for our SEND pupils if they need to complete questions from a previous year group.”

“At the same time, it also challenges the highest attaining pupils with the reasoning and problem solving questions in level 3, and teachers have the ability to set a third question set, which acts as an additional challenge.”

“With LbQ, all learners can reach their academic potential.”

Miss Lindsay, Assistant Headteacher

WHY IS LBQ SO EFFECTIVE IN YOUR SCHOOL? WHAT BOXES DOES IT TICK?

- ✓ “It provides the teachers with the vocabulary, linked learning and possible misconceptions for each objective so they can concentrate on their teaching and the pupil's learning rather than spending their time planning.”
- ✓ “During the lessons, teachers can see instantly who is struggling and might need extra support and deliver that immediately.”
- ✓ “The questions are carefully scaffolded with the use of visuals and take the pupils through the learning small steps at a time.”
- ✓ “The feedback provided to the children acts as an extra support in the room.”
- ✓ “It is not only maths that we use LbQ for, we also use it to cover the reading, science and grammar elements in our curriculum.”

TEACHER SUPPORT

“The LbQ team has been supportive and helpful from day one. They have always responded to requests and feedback quickly to ensure the product is just right for us. We even had a virtual visit from the author of the poetry resources, which the children really enjoyed.”

IS THERE ANYTHING YOU WOULD LIKE TO SAY TO OTHERS WHO MIGHT CONSIDER LBQ?

“Yes, I would say that if you want a programme that:

- enables all learners to access the questions at the right level;
- reduces workload for teachers but allows them to work extremely hard in the lesson;
- makes the children excited about their maths lessons;
- gives teachers and pupils instant access to live feedback and moves their learning forwards, then you should definitely give LbQ a try.”
