tes Timetable
Powered by edval

Tes Timetable

gives you the power and flexibility to easily create timetables tailored to your school's specific needs.

tes.com/edval

Create a bespoke timetable

- Create automated schedules or make manual allocations
- Identify and automatically fix teacher and room clashes
- Adapt your timetable to accommodate staffing changes
- Offer more options to students
- Reduce staffing costs

" *It enables me to be creative in discerning solutions that have a BIG impact on staff and students.*

Veronica Parker
Vice principal, Ursula Frayne Catholic College, Australia

Our algorithm can explore up to 30,000
alternate timetables per second allowing you to rework timetables efficiently.

" *The cost for timetabling has dramatically reduced. This allows us to put essential resources into the teaching and care of our children.*
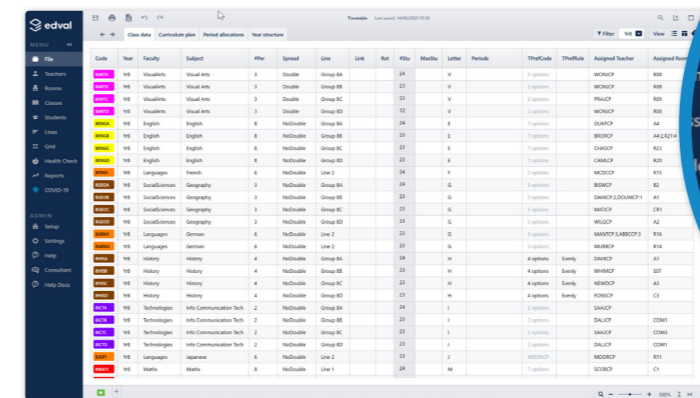

Janice Gorlach
Executive headteacher and deputy CEO, North East Learning Trust, UK

Support your staff

- Increase retention and create a culture of flexible working by amending your timetable to suit individual staff needs
- Improve teacher wellbeing and satisfaction by generating smarter schedules to reduce workload

Improve student outcomes

- Enable more students to study their first choice subjects
- Increase student satisfaction to create better learning outcomes

Over 1,700 schools
are using Tes Timetable's intelligent algorithms to create their timetables.
