

# Advantages

- Based on real scientific formulas
- Cloud-based system
- Teacher/Parent/
- Student dashboard
- More than 120 experiments
- Real time data

# Subjects

- Chemistry
- Biology
- Medical Biochemistry
- Electromagnetism
- Optics Waves and Sound
- Mechanics
- Thermodynamics
- Nuclear Physics
- Modern Physics
- Popular Science
- Mathematics

By including VRLab Academy to your science curriculum, you will be enhancing your science education with minimum effort and cost. Educators and students can perform experiments that based on real scientific formulas, input data, save it and share it.

We provide a strong foundation for your children's education.

- Interactive Lab Assistant
- Introduction Activities
- Data Interpretation
- Analytic Thinking

**VR LAB**  
ACADEMY

## Discover the world of science!

VRLab Academy makes million dollar laboratories available at a fraction of the cost!

Students and educators can perform scientific experiments online, input/receive data and enjoy while learning. VRLab Academy supports schools with **PC and VR versions** enabling each student to have access to scientific experiments whenever and wherever they want.

## VRLab Academy for Institutions

VRLab Academy provides campus management dashboard so the management can export usage reports as well as the evaluation held by instructors.
