ACADEMY  
JUNIOR

## Discover the world of science!

VRLab Academy makes million dollar laboratories available at a fraction of the cost!

Students and educators can perform scientific experiments online, input/receive data and enjoy while learning. VRLab Academy supports schools with **PC and VR versions** enabling each student to have access to scientific experiments whenever and wherever they want.

## VRLab Academy Junior for Institutions

VRLab Academy provides campus management dashboard so the management can export usage reports as well as the evaluation held by instructors.
