- Unified Platforms
- Single source of information
- Curriculum agnostic solutions
- Improved resource allocation

PARENTS ARE MORE ENGAGED

- 360-degree Views
- Quick Fee payments
- Enhanced Communications
- Easy Activity Enrollment
- Comprehensive Progress Tracking

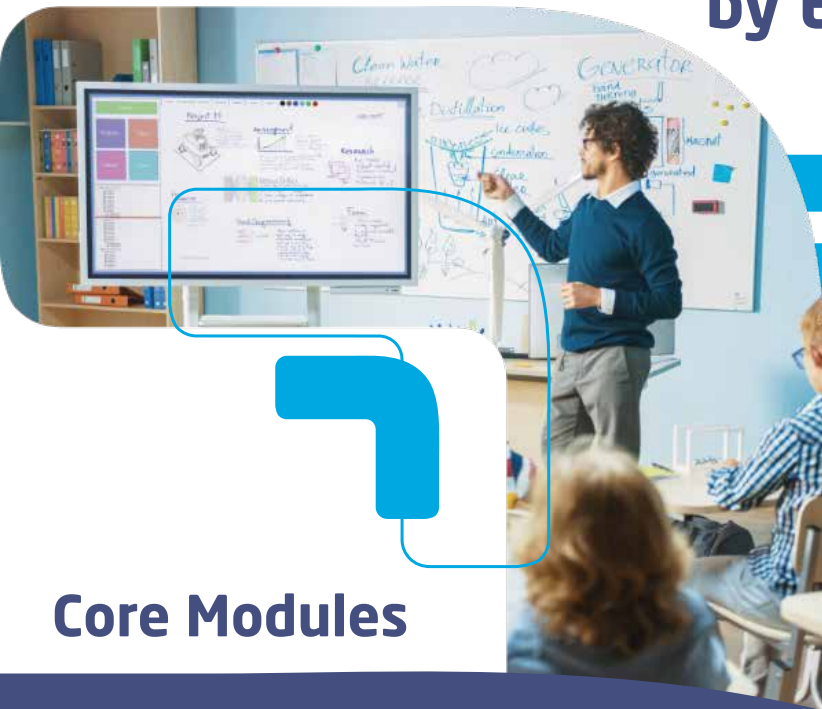

REGULATORS GOVERN BETTER

- One Platform across the School Network
- Reduced Costs, Efficient & Enhanced Organisation
- Real-time Monitoring of Schools & Departments
- Integrated HSE Solutions
- 360-degree View of education System
- Centralised Data Analytics & Insights
- Customised Enterprise Software

Our Platform is Designed by Educators, for Educators

Curriculum Agnostic

Advanced Data & Analytics

Seamless End User Experience

Multi-Modal Learning

Intuitive Interface

Core Modules

school

TMRW School provides access to powerful tools to manage academics, non-academics, ancillary services, back-office & ERP operations through one integrated module.

classroom

Taking the learning space to the world, TMRW Classroom provides synchronous and asynchronous lesson delivery and more.

administration

Stay ahead with TMRW Administration, a key component that manages HR, revenue, payroll, procurement and more.

services

TMRW Services has been designed to manage various categories such as sports, activities, counselling & wellbeing and more.

logistics

TMRW Logistics module equips the teachers and departments with the tools to manage transport, catering, contracts and more.

customer 360

A customer management module enabling a full 360-degree view of the enrolment and onboarding process, including parent management and messaging services.

guard

TMRW Guard is a health, safety and child safeguarding solution that provides comprehensive features to configure workflows and maintain students' wellbeing.

BI & analytics

Allow yourself the ease of managing data with a module that gives you actionable reports, sentiment analysis and departmental MIS/BI.
