

STUDYPHONES

AUDIO FOR SCHOOLS

StudyPhones is the answer to an ever demanding digital world. One sound doesn't fit all, especially for a new generation of listeners using audio content beyond just music. StudyPhones are innovative headphones designed specifically for a growing demographic of young listeners who rely on their headphones to consume primarily spoken audio content in an educational setting. Educational technology will only continue to grow as children are spending more time than ever before using smart devices for studying, and naturally appropriated audio solutions are needed to cater to that growing use.

EDUCATIONAL & WORKPLACE AUDIO

Built on the company's DNA of durability and audio safety, StudyPhones are a solution for educational and modern workplace listeners. Designed with students and workers in mind, StudyPhones feature added comfort, allowing them to be used for long periods of time.

STUDYPHONES Junior

The StudyPhones Junior is our educational headphones designed for younger kids. The key feature is the detachable boom microphone which is essential for picking up the child's voice. As with all our headphones, safe audio comes as standard, capping maximum volume at 94dB for safe listening up to 2 hours.

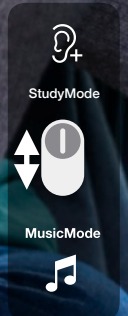

The audio cable includes a built-in answer & playback button and a BuddyJack™ splitter to share the audio with multiple listeners. The breathable sweat wicking ear cushions provide extra comfort during long sessions, and the adjustable headband makes fitting a breeze for a wide range of ages.

Finally, name tag and date labels are included to help easily identify the headphones.

STUDYPHONES

StudyPhones is the answer to an ever demanding digital world. Designed by ONANOFF, it's a headphone for listeners who need to listen primarily to spoken audio content in educational settings. Featuring StudyMode, a patented listening setting that enhances vocals, making them crisper and clearer. StudyPhones can help kids listen better and for longer.

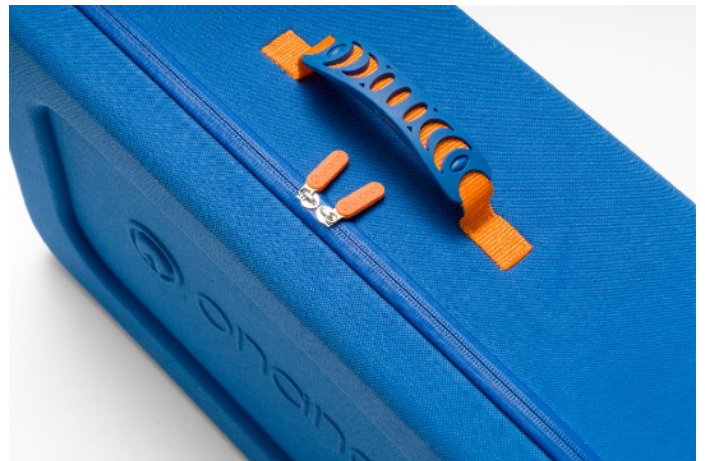

StudyPhones are ergonomically designed to be comfortable both outside and inside the ear, to help you stay comfortable while sitting over your work. Featuring passive noise cancellation, adjustable headband, detachable high performance boom mic and on headphone remote with call and track controls. StudyPhones deliver a high quality listening experience to help listeners to focus and perform better.

HEADPHONES STORAGE SOLUTIONS & ADAPTERS

Stay organized in the classroom with our amazing storage solution, the carry case capable of holding 10 StudyPhones, or 14 StudyPhones Junior for easy transportation. The dedicated pockets keep boom microphones and any adaptors secure and tidy.

PLACE YOUR LOGO ON THE HEADPHONES

StudyPhones allow for high levels of customization, from the headphone's color to the logo printed on the faceplate. We offer high quality UV logo printing on the StudyPhones and custom made stickers for the StudyPhones Junior.
