Wall Art.

by Promote Your School

Bring your school's walls to life[®]

Bespoke, zero maintenance Wall Art can transform old buildings, add personality to new builds, revamp outdoor spaces and turn thoroughfares into learning opportunities.

Our bespoke design service ensures you achieve the exact result that you want and communicate the message that's right for you.

Let us help you create stimulating learning environments that will enthuse and engage your students with impactful Wall Art designed to last many years.

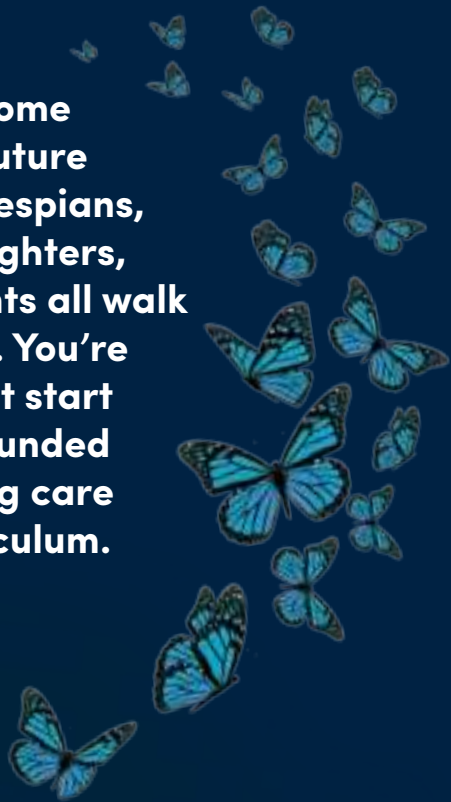

We can help you transform your whole school:

- Corridor Wraps
- Subject Zones
- Sports Wraps
- Stairwell Makeovers
- Welcome Walls
- Timelines
- Maps
- Library Wraps
- Canteen Revamps
- Values Boards
- External Facelifts
- Branded Signage
- Window Vinyls
- Teaching Rooms
- Acoustic Panels
- Table Tops
- Step Faces
- Ceiling Tiles
- Floor Vinyl

An investment

Your school is the home of future leaders. Future CEOs, scientists, thespians, sportspeople, firefighters, teachers and parents all walk your hallways daily. You're giving them the best start in life with a well rounded education, nurturing care and a diverse curriculum.

for the future

Why is a visual environment important?

Because comprehensive research and statistical evidence tells us so. **People remember 80% of what they see**, versus just 10% of what they hear. So, Wall Art can serve as a visual teaching aid to complement your lessons. Studies show that those who are exposed to aesthetically pleasing visual environments are proven to have better mental health too.

Why Wall Art?

Wall Art can deliver astounding results. Whether you are looking to improve attainment rates, enhance the curriculum, inspire learning for better outcomes or focus on creating a calming environment for pupils to improve well-being, Wall Art can have a positive impact.

Maybe you are looking to stimulate the senses, maintain motivation, reinforce key values, brighten up your external grounds or help pupils find their way around school more easily. Whatever the problem, we can work with you to find the right solution for your pupils and school community.

Market leading products and service

Unrivalled experience

At Promote Your School we have over 15 years' experience in education. Our products are centred on pupil well-being and are created bespoke to complement your curriculum. We've delivered immense impact to thousands of schools, pupils, staff and parents, and we'd love to do the same for you.

Designed for you

Our dedicated design team will work with you to create bespoke Wall Art tailored to your design brief and requirements. Our designs are created individually for each project, not just resized to fit a space.

We'll apply extensive industry knowledge, expertise and experience to your project. So, you'll get relevant and useful suggestions on how to use Wall Art to inspire learning and genuinely benefit your pupils.

Premium materials

We're committed to doing things the right way and use quality materials that will last well into the future, with minimal impact on the environment.

Fire test certificates are available on request and we are happy to liaise with your fire safety officer where necessary.

Complete peace of mind

Your studio time includes unlimited revisions during the design phase of your project for a fixed fee, giving you peace of mind that you will be 100% happy with the design.

We have worked with many schools in the UK and overseas and have a wide range of case studies available for your reference. We can also put you in touch with schools we have worked with who may be happy for you to visit and see their Wall Art first hand.

Free site visit and consultation

There is no charge for a site visit and initial consultation. We'd love to visit you at your school and discuss the options available to you!

Add text based facts to your Wall Art to maximise learning opportunities

Our curriculum is founded on the best that has been thought and said, because you deserve nothing less.

MEDIA

"The mass media is owned and controlled by powerful organisations which serve their own interests."

NAOMI CHOMSKY

RELIGIOUS STUDIES

"You are not a drop in the ocean. You are the entire ocean in a drop."

MUSIC

"Music gives a soul to the universe, wings to the mind, flight to the imagination and life to the soul."

Showcase your rich curriculum with a high impact feature wall in a main thoroughfare.

Using Wall Art to create subject zones or subject areas helps to get pupils in the right mindset for that lesson.

Partial coverage on long corridor walls offers a cost effective alternative to full height artwork

Skeleton

The human skeleton is the internal framework of the body. It is composed of around 270 bones at birth - this total decreases to around 206 bones by adulthood after some bones get fused together.

Muscular system

The muscular system consists of skeletal muscles, smooth muscle and cardiac muscle. It is responsible for movement of the body.

Circulatory system

The circulatory system is the system that transports blood throughout the body. It is responsible for the transport of oxygen and nutrients to the cells and the removal of waste products.

Water Cycle

The water cycle is the continuous process by which water evaporates from the surface of the ocean, forms clouds, and falls as rain or snow over land and water.

Light Refraction

Light refraction is the bending of light as it passes from one medium to another.

Forces

Forces are interactions that can change the motion of an object.

"PURE
MATHEMATICS
IS, IN ITS WAY,
THE POETRY OF
LOGICAL IDEAS."
ALBERT EINSTEIN.

Include quotes from iconic figures in each subject area and inspire greatness!

Biology, Physics and Chemistry Subject Zones

The wall display is a comprehensive educational resource for chemistry. It features a large periodic table of elements, with each element represented by a small card showing its symbol, atomic number, and name. The table is color-coded by groups. Surrounding the periodic table are various informational panels and cards. These include:

- Marie Curie:** A panel with a portrait and text about her discovery of radium and polonium.
- Dmitri Mendeleev:** A panel with a portrait and text about his discovery of the periodic table.
- Carbon:** A large hexagonal panel with the word "Carbon" written in a stylized font.
- Stephan Kwolek:** A panel with a portrait and text about her work in chemistry.
- Xenon:** A panel with a portrait and text about the element.
- Lithium:** A panel with a portrait and text about the element.
- Platinum:** A panel with a portrait and text about the element.
- Other elements:** Panels for Chlorine, Helium, and others, each with a small image and text.

sports and promote
healthy lifestyles.**

A large wall mural is the central focus. In the foreground, a hockey player in a red jersey is captured in a dynamic pose, leaning forward with his stick raised. In the background, a cricket player in blue gear is shown in a batting stance, swinging his bat. The text "HEALTHY LIVING." is written across the middle in large, bold, red, sans-serif capital letters. The background of the mural is a soft-focus green field with a white line, and there are faint, glowing geometric shapes and bokeh light effects scattered throughout, suggesting a modern, energetic atmosphere.

ALICE IN WONDERLAND

by Lewis Carroll

"CURIOUSER
AND
CURIOUSER!"

The image shows a book cover for 'The Wizard of Oz'. The background is a dark, lush green forest. In the upper right, a large white mushroom with a red and white spotted top is prominent. In the lower right, a smaller red mushroom with white spots is visible. On the left, a wooden staircase with a railing leads up to a wooden door, illuminated by warm, glowing lanterns. The title 'THE WIZARD OF OZ' is written in a white, stylized, gothic font across the middle. The author's name 'L. Frank Baum' is partially visible at the bottom left.
