

CLARITY

Servicing and Maintenance Contracts

Annual servicing of your sound, theatrical lighting, projection and other performance related equipment not only extends the useful life of your installation, but first and foremost, provides 'peace of mind' against the risk of:

- * Personal injury from poorly secured heavy over-head equipment.
- * Fire hazards due to unidentified electrical faults.
- * Embarrassing disruptions to live performances due to malfunctions.

Clarity offers three-year service contracts for both our own installations and those installed by others. The contract holder benefits from reduced call-out charges, priority response times, possible equipment loans if items cannot be repaired immediately, plus telephone, email and on-site support.

While on-site our engineers will also be able to refresh and update clients on the features and operation of their equipment.

Clarity provides the necessary access equipment for working at high level and all our engineers are DBS checked annually.

Typical Servicing Tasks

- ◆ Portable Appliance Testing (PAT) of lanterns.
- ◆ Checking the integrity of all support brackets and remedy as required.
- ◆ Checking the integrity of all connectors and remedy as required.
- ◆ Cleaning and servicing of theatrical lanterns.
- ◆ Operational testing of all equipment.
- ◆ Clean or replace projector filters and replacement of lamps.
- ◆ Checking and cleaning of theatrical curtain tracks and winches.
- ◆ Complete final overall system checks.
- ◆ Tailored training sessions are available to keep both existing and new staff up to date with the functions and full potential of your systems.
