

Distant Learning Engagement that works!

Over 10,000 Schools partner with Classera to help drive consistent outcomes in S.T.E.M. and Common Core. Our one of a kind Student and Teacher engagement Index, allows schools to manage dashboards tracking important metrics around positive academic activities, attendance, in class performance and a host of other tools that inspire daily achievement.

Tools that Inspire Achievement

A.I. powered LMS that inspires students and teachers alike. Give your school the competitive advantage it needs by providing every learner with a customized a personal learning path.

Develop Talent at Scale!

Classera Smart Mate®

Powerful artificial intelligence automatically identifies student weaknesses and allows learners to build academic strengths with recommended content specific to Common Core or STEM achievement. Instantly analyzes course content to help eliminate frustrating student guesswork while working remotely.

Gamification

Social Learning

Artificial Intelligence

Our Positive Behavior Management System is not just designed to help students achieve their goals. Its sole purpose is to fuel daily activities that lead to social emotional success and help build school community. It will take more than Teachers and Parents to achieve our goal. It will take community involvement to inspire those who need it most.

Smart Virtual Academy

Allow Teachers to Create Beautiful Learning Experiences for every Student. SVA is your own white labeled academy.

Create Custom Segmented learning pathways

Unlimited Curriculum Design

Upload free and paid content for classrooms
