

Announcement

Bett Brasil has been monitoring the updates issued by local, state and federal authorities on the evolution of the COVID-19 pandemic. With the escalation of the public health crisis and increase of circulation restrictions, the State of Sao Paulo has ordered the suspension of all events and, therefore, we are unable to have the onsite Bett Brasil event in May.

Depending on authorization of public authorities and with the expectation of a more favorable scenario onsite events, we have already saved a date for August 18 to 21, 2021.

In order to keep connected and continue building knowledge and relevant content, we are happy to announce the 2nd Jornada Bett Online - Digital and Human Transformation of Education, to take place from May 11 to 14 2021 - on a online platform.

We also have digital opportunities, such as webinars, newsletters, social media and other customized options. Additionally, to that, we are developing an innovative project, to be announced shortly, to accelerate business relations, approach startups and establish networking with educators.

Our team continue to work remotely, so please do join us online as we share updates on content, engagement, and most importantly, the on-going kindness, resilience, and perseverance from our community.
