INTRODUCTION

WELCOME TO THE FIFTH EDITION OF FRESH INSPIRATION

Your May edition of Fresh Inspiration focuses on the very best British garden products. Browse brands and start making your wish list.

A NOTE FROM MATT:

British design has a great heritage and British products are often highly sought-after, it's a good idea to stock a range of British made products. We've created a fantastic round-up of some of the best British products that are either in the market place or yet to be launched at Glee.

Fresh inspiration will be running each month leading up until the main event where you can see these products live and meet the suppliers live. If you are an exhibitor that would like feature your new products in here please email fernanda.pinto@i2ieventsgroup.com

SEEDBALL

Have you heard about seed balls? They are small sized balls of clay, compost and wildflower seeds mixed with a smidgen of chilli powder. An innovative way to spread seed and naturally protect from predators, seed balls are an ancient technique recently revived by the conservation scientists that founded Seedball, with the aim to help more people grow pollinator friendly flowers (and more recently herbs and salad too!).

BURGON & BALL

Burgon & Ball began manufacturing in 1730 in the industrial heartland of Sheffield and for 280 years they have produced some of the finest sheep shears and cutting tools in the world. The metalworking skills of their workforce are some of the very best in the world and have been passed down through generations.

They are passionate about quality - many of the most important product attributes are 'hidden qualities' that only emerge when a tool is used. Qualities such as ensuring an edge tool cuts months and years down the line, not just when it's brought home from the shop.

BON BONS (WHOLESALE) LTD

Bonbons chocolate tools make the ideal man gift and look like the real thing! Each tool comes in its own attractive presentation box.

Bon Bons is a small independent business who care deeply about what they do and how they do it, they are down to earth, straight forward and approachable. They aim to be a little bit different, offering their customers amazing visual displays and outstanding levels of sales and profit. They think confectionery should be exciting, fun, emotional, irresistible, tempting and stop people in their tracks.

Baggee is a fabulous British designed keychain device for storing plastic bags. Now there is a 5p tax on plastic bags there has never been a better time to re-use your existing bags and bring them back to the shops with you.

We use over 13 billion plastic bags every year in the UK alone and the Globe Baggee has been designed to highlight the need for us all to care for our environment, if you even just use a bag twice you halve a problem.

The Baggee is a flexible hollow ball on a keychain that can accommodate up to 3 supermarket plastic bags. Bags are simply stuffed into the unit and stay in without the need of a cap or lid and when needed pull out one at a time.

LEVELLOAD

The LevelLoad wheelbarrow system makes it easier and safer to use your wheelbarrow on uneven surfaces and even rough terrain.

Hand crafted and fabricated in Norfolk, England by Sheringham Engineering Ltd this innovative, patent applied for system relies on an ingenious yet simplistic three point locking system, securing and releasing, requiring no assistance from the user.

LevelLoad wheelbarrows are suitable for all users and available fully assembled.

Supplied with a limited lifetime warranty, guaranteeing the quality of the LevelLoad product range.

SEEDCELL

Green Digit Ltd are the creators of SeedCell, an innovative fun-to-use seed packet that snaps apart and is planted in the ground without the need for tools.

Traditional seed packaging uses a sachet made of paper, plastic and foil, resulting in a composite material that cannot be recycled once used. The SeedCell disk however, made entirely from recycled materials, absorbs ground moisture once planted and retains it, aiding germination whilst providing a micro-climate that encourages growth.

H2O2GO

H2o2go manufacture and supply mobile watering carts to garden centres and supermarkets. The carts fill from the mains and provide your staff with up to 50 litres of water, under pressure, that is easily transported and dispensed onto plant and flower sections - all without pumps or electricity! Safely, quickly, efficiently keep your plants hydrated throughout the day, even during business hours, with an H2o2go Cart.

THE HILL BRUSH COMPANY

The Company originally specialized in dairy and agricultural brushes and within a few years, many of the streets from Hampshire to Cornwall were being swept with brushes made by Hill Brush. They also produced brushes for milk bottles and were one of only two manufacturers of this type of brush outside the United States, exporting them to many parts of the world.

They recently launched their new range of litterpickers with unique features including; hi-visibility strip for low light conditions, ergonomic hand grip and responsive grab mechanism. These products were designed by Hill Brush in the UK and are some of our most popular items.

WJ GROUP

WJ Group (WJ Components Ltd) was established in 2007, initially to provide the local caravan industry in Hull with a supply chain partner capable of manufacturing high volume nail plated roof trusses to a consistent quality standard.

Their most recent product innovation is DeckWright Anti-Slip; a fully tested and approved anti-slip timber decking product that can be used as a service or to provide you with a fully finished anti-slip product. This is now accompanied by DeckWright Inserts which can be fitted to previously laid decking, ensuring that it can offer a comprehensive, professional anti-slip range for timber decking.

ENVII

At Envii, which is a brand created by Bio8 Ltd, they specialise in environmentally-friendly home and garden products. From removing the sludge from your pond to helping your garden grow, their products are natural and unique. Envii knows how important it is for their customers to have products that are safe for children and pets, which is why wherever possible they only use naturally-forming materials. You shouldn't have to compromise on price and power when choosing to use environmentally-friendly products - go green with Envii.

SPEAR & JACKSON

Centuries of experience and innovation have resulted in the materials and development expertise that resides within the company today; and 'continuous innovation' is at the heart of the company's ethos. This drive to improve product materials and performance can be seen in many different ways across the company's 3,000 lines. The organisation has come a long way since 1760, and the Spear & Jackson Group now manufactures and distributes garden tools, metrology equipment, woodworking tools and magnetic equipment under several brand names: Neill Tools, Bowers, Robert Sorby, Moore and Wright, Eclipse, WHS and Tyzack.
